Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain's declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it *Tourism*

Critical Perspectives on Work-Integrated Learning in Higher Education Institutions Nirmala Dorasamy, Renitha Rampersad, 2018-11-30 Governments around the world are committed to enhancing students' graduation rates. Work-integrated learning (WIL) is one of the many programmes which Higher Education Institutions (HEIs) can develop to promote this facet of student life. The incorporation of work-integrated learning in curriculum design and development can produce reciprocal benefits for students, workplaces, professions, and communities. Any curriculum design and development endeavour relating to WIL requires appropriate resources to support curriculum development. This book serves to explore WIL programmes and experiences for the student, WIL coordinator, and supervisor. It further integrates practical, relevant, and reflective industry experience within the higher education curriculum to enhance student development. WIL has no uniform or specific framework or approaches since it is an emerging field and is generally influenced by contextual factors. In view of the diversity in theory and practice and different purposes, whether pragmatic or practical, driving the adoption of one approach over another, this book highlights the diverse approaches that encapsulate WIL in South Africa.
