Bilingualism for All? Nelson Flores, Amelia Tseng, Nicholas Subtirelu, 2020-12-16. It is common for scholarly and mainstream discourses on dual language education in the US to frame these programs as inherently socially transformative and to see their proliferation in recent years as a natural means of developing more anti-racist spaces in public schools. In contrast, this book adopts a raciolinguistic perspective that points to the contradictory role that these programs play in both reproducing and challenging racial hierarchies. The book includes 11 chapters that adopt a range of methodological techniques: qualitative, quantitative, and textual disciplinary perspectives in linguistics, sociology, and anthropology, and language foci in Spanish, Hebrew, and Korean to examine the ways that dual language education programs in the US often reinforce the racial inequities that they purport to challenge.
