I believe that the E Symposium on Industrial and Systems Engineering (ISE) should promote an integrated learning environment for an interdisciplinary approach through its academic advisory programs that provide mathematics, statistics, and computer systems as additional rather than engineering subjects. Mathematical concepts have been applied in previous research (Hyndy, 1999) where research groups have synthesized the engineering and mathematical sciences in mathematics. I believe that ISE should have the opportunity to expand on the knowledge I was introduced to as a child. I am excited to be able present to that learning system as the E Symposium on Industrial and Systems Engineering through the integration of the academic knowledge and my personal/industry-related studies as shown in my interdisciplinary research.

The College Buzz Book Carolyn C. Wise, Stephanie Hauser, 2007-03-26 Many guides claim to offer an insider view of top undergraduate programs but no publisher understands insider information like Vault and none of these guides provides the rich detail that Vault's new guide does. Vault publishes the entire surveys of current students and alumni at more than 300 top undergraduate institutions. Each 2 to 3 page entry is composed almost entirely of insider comments from students and alumni. Through these narratives Vault provides applicants with detailed balanced perspectives. *The Business School Buzz Book* Vault Editors, 2006-02-07 In this new edition Vault publishes the entire surveys of current students and alumni at more than 100 top business schools. Each 4 to 5 page entry is composed of insider comments from students and alumni as well as the school's responses to the comments. *Law School Essays that Made a Difference, 4th Edition* Princeton
