Lineages of the Global City Shiben Banerji, 2025-07-08 The forgotten history of the occult foundations of the early twentieth century global city War revolution genocide rebellion slump The economic and political turmoil of the early twentieth century seemed destined to rip asunder the ties that bound colonizers and the colonized to one another The upheaval represented an opportunity and not just to nationalists who imagined new homelands or to socialists who dreamed of international brotherhood For modernists in the orbit of various occultisms the crisis of empire also represented an opportunity to reveal humanity's fundamental unity and common fate Lineages of the Global City recounts a continuous if also contentious transnational exchange among modernists and occultists across the Americas Europe South Asia and Australia between 1905 and 1949 At stake were the feelings and affect of a new global subject who would perceive themselves as belonging to humanity as a unified whole and the urban environment that would foster their subjectivity The interventions in this debate which drew in the period's most renowned modernists took the form of a succession of plans for cities suburbs and communes as well as experiments in building drawing printmaking filmmaking and writing Weaving together postcolonial feminist and Marxist insight on subject formation Shiben Banerji advances a new way of understanding modernist urban space as the design of subjective effects *The Saturday Review of Politics, Literature, Science and Art* ,1881 **The Universal Cyclopaedia** ,1900 Blood from Your Children Benedict Carton, 2000 The young black activists whose rejection of their parents complacency led to the 1976 Soweto uprising and the eventual demise of apartheid are part of a long tradition of generational conflict in South Africa In Blood from Your Children Benedict Carton traces this intense challenge to an extraordinary and pivotal episode a century ago that bitterly divided families along generational lines Facing a series of ecological disasters that crippled agriculture in the 1890s African youths in colonial Natal and Zululand perceived their fathers struggle to meet increased colonial demands as an act of betrayal Young people engaged more frequently in

premarital sex while young men sparked widespread gang fights and young women rejected traditional filial and marital obligations In 1906 after the imposition of an onerous head tax on young men this domestic turmoil exploded into an armed uprising known as Bambatha's Rebellion The young men sought revenge by attacking both the African patriarchs whose apparent accommodation they considered traitorous and the colonial troops dispatched to quell the violence After the Natal forces crushed the insurrection some captured rebels faced trial for treason under martial law Often their fathers testified against them While the military intervention eventually caused many more African youths to seek work in the mines thus defusing generational turmoil others moved to industrial centers in the wake of the uprising These young people formed the vanguard of insurgent political groups that continue to play an important role in South African urban life Through his lively and thorough presentation of the forces at work in Bambatha's Rebellion Benedict Carton brings a fresh understanding to the tragic role of defiant youth and generational rivalry in African resistance *Unstable Ground* Rosalind C. Morris, 2025-03-04

What has gold done to people What has it made them do The Witwatersrand in South Africa once home to the world's richest goldfields is today scattered with abandoned mines into which informal miners known as zama zamas venture in an illicit often deadly search for ore Based on field research conducted across more than twenty five years around these mines *Unstable Ground* reveals the worlds that gold made possible and gold's profound costs for those who have lived in its shadow and dreamt of its transformative power From the vantage point of the closure of South Africa's gold mines Rosalind C Morris reconsiders their histories beginning in the present and descending into the pasts that shaped them Anchored in evocative descriptions of mining in the ruins this book explores the social worlds built on gold and the lives that were remade and sometimes undone by the industry over a century and a half Viewing this industry from its margins against the backdrop of the cyanide revolution the gold standard's demise and recurrent sinkholes as well as the insurrectionary protests and violence that continue to this day it recasts the history of South Africa and the incomplete effort to overcome apartheid amid the transformations of the global economy In writing that is by turns immersive incisive and poetic Morris unearths a history that was born of imperial aspiration and that persists as a speculative mirage Interweaving ethnography history personal testimony and political thought with striking readings of South African literary texts *Unstable Ground* is a work of extraordinary ambition and depth **The Power of Your Life** Grietjie Verhoef, 2018-10-22
