Machine vision technology has created a strong interest among research organizations resulting in many innovative products
Despite this end users have been very skeptical towards machine vision and its robustness in harsh industrial environments
This book presents the results of a national machine vision technology program aimed at boosting research and putting
research results to work in practical industrial applications The topics to be covered include image acquisition analysis of
surface color and texture applications of machine vision in surface inspection and process control 3 D measurements and
CAD based machine vision *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1968
