Revolutionary Spring Christopher Clark,2024-06-11 New York Times Book Review Editors Choice From the bestselling author of The Sleepwalkers comes an epic history of the 1848 revolutions that swept Europe and the charismatic figures who propelled them forward Refreshingly original Familiar characters are given vibrancy and previously unknown players emerge from the shadows The Times UK A BEST BOOK OF THE YEAR New Yorker The Economist Financial Times As history the

uprisings of 1848 have long been overshadowed by the French Revolution of 1789 and the Russian revolutions of the early twentieth century. And yet in 1848 nearly all of Europe was aflame with conflict. Parallel political tumults spread like brush fire across the entire continent leading to significant changes that continue to shape our world today. These battles for the future were fought with one eye kept squarely on the past. The men and women of 1848 saw the urgent challenges of their world as shaped profoundly by the past and saw themselves as inheritors of a revolutionary tradition. Celebrated Cambridge historian Christopher Clark describes 1848 as the particle collision chamber at the center of the European nineteenth century, a moment when political movements and ideas from socialism and democratic radicalism to liberalism, nationalism, corporatism, and conservatism were tested and transformed. The insurgents asked questions that sound modern to our ears: What happens when demands for political or economic liberty conflict with demands for social rights? How do we reconcile representative and direct forms of democracy? How is capitalism connected to social inequality? The revolutions of 1848 were short-lived but their impact on public life and political thought throughout Europe and beyond has been profound.

Meticulously researched, elegantly written, and filled with a cast of charismatic figures including the social theorist Alexis de Tocqueville, the writer George Sand, and the troubled priest F.licit de Lamennais who struggled to reconcile his faith with politics, *Revolutionary Spring* offers a new understanding of 1848 that suggests chilling parallels to our present moment. Looking back at the revolutions from the end of the first quarter of the twenty-first century, it is impossible not to be struck by the resonances. Clark writes, "If a revolution is coming for us, it may look something like 1848." *The Road Washes Out in Spring* by Baron Wormser, 2023-03-07. A new edition of an evergreen back-to-nature book in the tradition of Thoreau. For nearly twenty-five years, poet Baron Wormser and his family lived in a house in Maine with no electricity or running water. They grew much of their own food, carried water by hand, and read by the light of kerosene lamps. They considered themselves part of the back-to-the-land movement, but their choice to live off the grid was neither a statement nor a protest; they simply had built their house too far from the road and could not afford to bring in power lines. Over the years, they settled into a life that centered on what Thoreau would have called the essential facts. In this graceful meditation, Wormser similarly spurns ideology in favor of observation, exploration, and reflection. When we look for one thread of motive, he writes, we are in all likelihood deceiving ourselves. His refusal to be satisfied with the obvious explanation, the single thread of motive, makes him a keen and sympathetic observer of his neighbors and community, a perceptive reader of poetry and literature, and an honest and unselfconscious analyst of his own responses to the natural world. The result is a series of candid personal essays on community and isolation, nature, civilization, and poetry. Lovely and rich, *The Road Washes Out in Spring* is an immersive read. A new preface by the author rounds out this new edition. *Nurses, Doctors & Medical Specialties, The Poems*, **But Does This Work With English Learners?** Mary Amanda Stewart, Holly Genova, 2020-05-27. **Poetics of Emptiness**

Jonathan Stalling, 2010 Poetics of Emptiness traces the historically specific intertextual pathways of a single if polyvalent philosophical term emptiness as it is transformed within twentieth century American poetry and poetics This conceptual migration is detailed in two sections The first focusing on transpacific Buddhist poetics discusses Ernest Fenollosa s The Chinese Written Character as a Medium for Poetry as an expression of Fenollosa s Buddhist poetics explores classical Chinese poetics as it was known by Fenollosa and talks about the role of emptiness in Gary Snyder The second half on transpacific Daoist poetics explores the career of poet translator critic Wai lim Yip and engages the weave of post structural thought and

Daoist and shamanistic discourses in Theresa Hak Kyung Cha Formulating interpretive frames as hybrid as the texts being read this book unveils one of the most important yet still largely unknown stories of American poetry and poetic The Genres of Thomson's The Seasons Sandro Jung, Kwinten Van De Walle, 2018-09-01 Critics since the eighteenth century have puzzled over the form of James Thomson's composite long poem *The Seasons* 1730 1744 1746 its generically hybrid make up and its relationship to established genres both Classical and modern The textual condition of the work is complicated by the fact that it started as a stand alone poem *Winter* 1726 but was subsequently expanded as part of a revision process that lasted almost two decades through the addition of three further seasons poems Transforming from primarily devotional poem to georgic account of the role of man's laboring role in the creation the meaning of *The Seasons* shifted with each addition of new material Each revision introduced diverse subject matter while existing material was reorganized and occasionally moved from one season installment to another *The Genres of Thomson's The Seasons* is the first collection of essays exclusively devoted to the study of the work's formal heterogeneity polyvocality and polygeneric character All contributions examine the different modes descriptive reflective pastoral hymnal amatory epic georgic dramatic discourses political sentimental scientific and kinds that cooperate to make up the different installments and variants of *The Seasons* They probe the multifarious interactions between different genres and modes and how a renewed focus on the form of Thomson's long poem will result in an understanding of the processual character of *The Seasons* as a synthesizing simulacrum of various discourses and theories of composition The volume's essays map the generic anatomy of the poem in its different incarnations They shed light on the poet's conception of the descriptive long poem and his engaging with formal traditions that would have enabled contemporaneous readers to conceive of *The Seasons* as an assimilating and learned work to be read through both the works of the Classics and moderns Contributions revisit models explaining the structural complexity of *The Seasons* proposing others in their stead and consider Thomson as the author of a long poem in relation to other poets both English and in a transnational study Swedish The poem is furthermore contextualized in terms of sexuality and animal studies **The Northwestern Miller**, 1903 **The Rebellion of Forms in Modern Persian Poetry** Farshad Sonboldel, 2024-02-08 An analysis of the aesthetic cultural and political aspects of alternative poetic movements and individual poets in three periods the Constitutional Revolution 1900 1920 the post constitutional era 1920 1940 and the ascendancy of modernism 1940 1960 Farshad Sonboldel shines new light on the history of modern Persian poetry by reimagining the roles that the aesthetic experimentations of alternative poets played in different phases of the literary revolution in modern Persian poetry Dominant narratives portray modern Persian poetry as a gradual rational and moderate change in the classical regime of aesthetics as well as a response to and reflection of cultural and socio political changes within Iranian society They also disregard the significance of radical experiments by alternative poets and undervalue the part they played in the initiation and progress of the so called literary revolution These mainstream narratives minimize the

socio political engagement of literary works with the direct reflection of the social reality and thus neglect the way many alternative poems struggle with socio political issues through deconstructing the old and constructing new aesthetic systems Each chapter of *The Rebellion of Forms in Modern Persian Poetry* is centred around poems chosen for their potential to showcase notable experiments of pioneer movements and individuals in each given period Examining the formal and thematic aspects of these poems this book reformulates the story of modern Persian poetry and unravels the relationship between radical aesthetic changes in the practice of poetry and resistance against political and cultural domination in society

**Learning and Leading with Technology** ,2002      **Poetry and Work** Jo Lindsay Walton,Ed Luker,2019-11-16 Poetry and Work offers a timely and much needed re examination of the relationship between work and poetry The volume questions how lines are drawn between work and non work how social political and technological upheavals transform the nature of work how work appears or hides within poetry and asks if poetry is work or play or something else completely The book interrogates whether poetry and avant garde and experimental writing can provide models for work that is less alienated and more free In this major new collection sixteen scholars and poets draw on a lively array of theory and philosophy archival research fresh readings and personal reflection in order to consider work and poetry the work in poetry and the work of poetry Individual chapters address issues such as the many professions occupations and tasks of poets beyond and around writing poetry s special relationship with craft work s relationship with gender class race disability and sexuality how work gets recognised or rendered invisible in aesthetic production and beyond the work of poetry and the work of political activism and organising and the notion of poetry itself as a space where work and play can blur and where postwork imaginaries can be nurtured and explored
