Politics in France Charles Hauss, 2007-10-01 France has shifted toward more normal politics since the mid 1960s That's saying a lot for a country that has had three monarchies five republics two empires and a neo fascist regime in the years since its revolution in 1789 Hauss's lively and up to date new text looks beyond de Gaulle's revolution tracing France's historical development up to the present and describing with fresh insight its political culture parties interest groups and institutional system as well as its place in the EU and the larger global economic order Hauss offers lively analysis of recent events and issues including the May 2007 presidential elections hot button policy issues like immigration and the assimilation of non Westerners into the French cultural and political landscape and the impact of the EU on France's economic policies Adopt together with Politics in Britain and Politics in Germany and pass savings along to your students For pricing and ordering information please contact us at <mailto:collegesales@cqpress.com>

The Pittsburgh Way to Efficient Healthcare Naida Grunden, 2007-12-13 America's healthcare system needs to change Not only does our country spend 16 percent of its gross domestic product on healthcare but despite spending more than other industrialized countries our general health lags behind While we have plenty of data identifying where healthcare in America falls short we've precious little practical hands on information about how to fix it In The Pittsburgh Way to Efficient Healthcare Naida Grunden provides a ingenious and

optimistic look at how principles borrowed from industry can be applied to make healthcare safer and in doing so make it more effective and less costly The book is a compilation of case studies from units in different hospitals around the Pittsburgh region that successfully applied industrial principles to the benefit of patients and the satisfaction of employees The Pittsburgh Way to Efficient Healthcare is written for all healthcare stakeholders from clinicians to insurers to employers to those who have the greatest stake in healthcare quality improvement the patients About the Author Naida Grunden has been a business and technical writer for over 25 years specializing for the past six years in health and medical writing for the Pittsburgh Regional Health Initiative She writes the PRHI Executive Summary newsletter a publication she founded in 2001 www.prhi.org Her work has appeared in publications as varied as the Joint Commission Journal on Quality and Patient Safety and Air Line Pilot magazine Ms Grunden received the 2006 Challenge Award from the American College of Clinical Engineering for her article on the VA wheelchair work in Biomedical Instrumentation and Technology magazine Ms Grunden completed her B A in English at California State University East Bay and her secondary English teaching credential at California State University San Francisco She lives in Bellingham Washington Visit her website at www.NaidaGrunden.com

An Optimization Primer Lawrence Nazareth,2004-05-18 This book introduces a general audience to the main facets of optimization Very little mathematical background is assumed It should appeal to students teachers and a general audience interested in how optimization affects their everyday life such as people in business Plan to Succeed Steven C.

Stryker,2012-03 This book was written to provide a new direction and capability for planning Learn how to plan and apply insights gained for the life cycle of your business situation in both the short and long term Change your focus from how to make your business work to planning for problems and opportunities to achieve goals and objectives so that your business will not only succeed but thrive The International Handbook of Collaborative Learning Cindy E. Hmelo-Silver,2013

Collaborative learning has become an increasingly important part of education but the research supporting it is distributed across a wide variety of fields This book aims to integrate this theory and research and to forward our understanding of collaborative learning and its instructional applications Translation Ethics Joseph Lambert,2023-03-22 Translation Ethics introduces the topic of ethics for students researchers and professional translators Based on a successful course and written by an experienced instructor the Introduction and nine core chapters offer an accessible examination of a wide range of interlocking topic areas which combine to form a cohesive whole guiding students through the key debates Built upon a theoretical background founded in philosophy and moral theory it outlines the main contributions in the area and traces the development of thought on ethics from absolutism to relativism or from staunchly argued textual viewpoints to current lines of thought placing the translator as agent and an active even interventionary mediator The textbook then examines the place of ethical enquiry in the context of professional translation critiquing provision such as codes of ethics Each chapter includes key discussion points suggested topics for essays presentations or in class debates and an array of contextualised examples

and case studies Additional resources including videos weblinks online activities and PowerPoint slide presentations on the Routledge Translation studies portal provide valuable extra pedagogical support This wide ranging and accessible textbook has been carefully designed to be key reading for a wide range of courses including distance learning courses from translation and interpreting ethics to translation theory and practice
