Partisan Dealignment and the Blue-Collar Electorate in France Sally Marthaler,2020-01-02 This book explores partisan dealignment in France between 1978 and 2012 with a particular focus on the blue collar electorate and its relationship with the political parties of the established left the Socialist Party or Parti socialiste and the Communist Party or Parti communiste fran ais It highlights the distinctiveness of blue collar partisanship in a context of significant political social and economic change and compares it with patterns of partisanship in the wider electorate The voter party relationship is self evidently a bilateral one which can be modified both on the demand side because voters change and on the supply side because parties change Four factors are identified as playing a key role in partisan dealignment value change policy convergence political sophistication and political trust There is compelling evidence that while each of these makes a contribution it is changes in the behaviour of the parties that are driving partisan dealignment among blue collar workers in France **Memoirs on the Physiology of Nerve, of Muscle and of the Electrical Organ** Sir John

Burdon-Sanderson,1887 **The Fault Lines of Inequality** Huw Macartney,Johnna Montgomerie,Daniela Tepe,2022-05-03 This book examines how decisions made by the Conservative government during the COVID19 pandemic have increased economic inequality in the UK Decades of austerity asset based welfare and financialization had already exacerbated social divisions in the UK prior to the pandemic The political blueprint behind these measures combined Privatized Keynesianism and the Asset Economy To explain economists have highlighted that inequality derives from the fact that income from wealth increases at a faster rate than income from wages The ensuing political assumption is that in the face of pressures on public finances promoting asset ownership is the best alternative to government funded welfare schemes What this meant as the pandemic unfolded was that when tough decisions about resource allocation needed to be made the UK Treasury and the Bank of England found almost unlimited funds to rescue and protect asset holders and middle income homeowners whilst reverting to a narrative of misfortune for the asset less poor This book assesses the political decisions taken by UK policymakers during 2020 21 and their consequences In doing so it challenges policymakers and the informed public to re consider the morality of inequality and to make alternative decisions to promote a more ecologically sustainable caring equal

and prosperous society
