India and other countries in Asia However there is a concern regarding the performance of green buildings failing to meet
the expectations of clients during the operation One of the key reasons for this is poorly commissioned HVAC systems In this
publication we provide tools and knowhow for more efficient HVAC commissioning It gives answers for four major questions
why commissioning is needed how to perform proper commissioning which key performance issues of common HVAC
equipment need to be considered and what kind of checklists are used during commissioning It covers the entire
commissioning process beginning with the owner s project requirements and commissioning design reviews Then it explains
procedures during installation and start up of equipment followed by the functional performance testing seasonal
commissioning and 10 months operation review This publication is developed by Indian Society of Heating Refrigeration and
Air Conditioning Engineers ISHRAE for Indian and Asian requirements in conjunction with the Federation of European HVAC
Associations REHVA The process steps described in this publication are in line with all major international building standards
