1. **Identify the problem.** The first step is to identify the problem. This involves understanding the situation and the needs of the community.

2. **Set goals.** Once the problem is identified, the next step is to set goals. These goals should be specific, measurable, achievable, relevant, and time-bound.

3. **Develop a plan.** After setting goals, a plan must be developed. This plan should outline the steps that will be taken to achieve the goals.

4. **Implement the plan.** The next step is to implement the plan. This involves putting the plan into action and monitoring progress.

5. **Evaluate the results.** Finally, the results of the plan must be evaluated. This involves assessing whether the goals have been achieved and whether the plan was effective.
