Agency and Institutions in Sport Mathew Dowling, Jonathan Robertson, Marvin Washington, Becca Leopekey, Dana Ellis, 2024-08-30 This book offers a unique insight into the role of individuals and organisations in shaping institutional arrangements within the context of sport

Institutional approaches can be used to examine the complex relationships between sport organisations and their broader environment and can help explain some of the most fundamental questions about the nature of how sport is organised including why are many sport organisations so similar Why do they adopt practices that are seemingly irrational And how can we explain how change occurs within sport organisations In drawing upon contemporary scholarship and empirical evidence collected by internationally recognized experts within sport this book provides a contemporary collection of studies that advances the understanding of agency in institutions through sport In doing so the chapters in this book bridge the theoretical divide between mainstream management and sport management to help facilitate a joint venture for future research This book will be essential reading for advanced undergraduate or postgraduate students on sport or sport related courses and researchers interested in institutional analysis and its potential application to sport The chapters in this book were originally published as a special issue of *European Sport Management Quarterly* *Media, Women, and the Transformation of Sport* Pamela J. Hagerman, 2023-05-15 *Skimpy Coverage* explores *Sports Illustrated*'s treatment of female athletes since the iconic magazine's founding in 1954. The first book length study of its kind, this accessible account charts the ways in which *Sports Illustrated*, arguably the leading sports publication in postwar America, engaged with the social and cultural changes affecting women's athletics and the conversations about gender and identity they spawned. Bonnie Hagerman examines the emergence of the magazine's archetypal female athlete: good looking, straight and white, and argues that such qualities were the same ones the magazine prized in the women who appeared in its wildly successful Swimsuit Issue. As Hagerman shows, the female athlete and the swimsuit model, at least for the magazine, were essentially one and the same. Despite this conflation and the challenges it poses, Hagerman also tracks the distance that sportswomen, including Wilma Rudolph, Billie Jean King, Serena Williams and Megan Rapinoe, have traveled both within *Sports Illustrated*'s pages and without. Blending sports with gender history, *Skimpy Coverage* profiles numerous sportswomen who have used athletics and the platform sport offers to push for empowerment, freedom, equality and acceptance in ways that have complemented and inspired broader feminist agendas.

The Active Female Jacalyn J. Robert-McComb, Mimi Zumwalt, Maria Fernandez-del-Valle, 2023-02-27 Now in a revised and expanded third edition, the aims of *The Active Female* are threefold: first, to increase the awareness of wellness and fitness issues for active females and their family members; second, to provide an avenue for medical practitioners, allied health professionals, health educators, providers and certified individuals in sports medicine, athletics, to gain critical, updated knowledge of a field specific to active females; and third, to introduce the concept of obesity as a growing health concern, even for normal weight individuals. Part I of the book offers a foundation for understanding the interrelationships between female physiology, body image and other psychological issues, the female reproductive cycle and the musculoskeletal anatomy and physiology of females that makes their health risks and concerns unique. In Part II, the concepts of eating disorders from a global perspective and the health disparities and inequities in women's health are discussed in detail. Part III describes the prevention and management of common musculoskeletal injuries in active females across the lifespan, including the management of osteoporosis. Appropriate exercise and nutritional guidelines and recommendations for active females are discussed in detail in Parts IV and V. Part VI is a new addition to the book and highlights the obesity epidemic and co-morbid diseases associated with obesity, even for normal weight obese individuals. Each chapter is bookended by clear learning objectives and review questions for additional pedagogical appeal. An invaluable addition to the literature, *The Active Female: Health Issues throughout the Lifespan* will be of great interest to all clinicians and allied health care professionals concerned with women's health and related issues, from sports medicine and family practitioners to endocrinologists, gynecologists and orthopedic surgeons. **Mistaking Africa** Curtis Keim, Carolyn Somerville, 2021-12-27 For many in the

west the mention of Africa immediately conjures up images of safaris ferocious animals sparsely dressed tribesmen and impenetrable jungles Newspaper headlines rarely touch on Africa but when they do they often mention authoritarian rule corruption genocide devastating illnesses or civil war Advertising movies amusement parks cartoons and many other corners of society all convey strong mental images of the continent that together form a collective consciousness Few think to question these perceptions or how they came to be so deeply lodged in western minds Mistaking Africa looks at the historical evolution of this mind set and examines the role that popular media plays in its creation The authors address the most prevalent myths and preconceptions and demonstrate how these prevent a true understanding of the enormously diverse peoples and cultures of Africa Updated throughout the fifth edition considers images of Africa from across the world and provides new analysis of what Africans are doing themselves to rewrite the stories of their continent particularly through social and digital media Mistaking Africa is an important book for African studies courses and for anyone interested in unraveling misperceptions about the continent
