Sports in society : issues and controversies Jay J Coakley, Cora Burnett, 2014

Sports in Africa reflect a complex colonial history in which recent democratic changes have set out to redistribute wealth, reclaim notions of an African heritage, and celebrate diversity. With a growing need to discuss and analyse issues, images, and controversies with relevance to both the African and South African contexts, a detailed introduction to the sociology of sport is provided within this, the southern African edition of *Sports in society: issues and controversies*. This adaptation of the American and international editions provides a meaningful framework and depth of sociological issues, theories, concepts, and sporting practices in Africa, and then also particularly South Africa. Inevitably, there are many similarities within this framework to the original text, and it therefore still forms the basis of exploring the dynamic relationship between sports culture and society.
