An Investment Framework for Nutrition Meera Shekar, Jakub Kakietek, Julia Dayton Eberwein, Dylan Walters, 2017-04-24 An Investment Framework for Nutrition Reaching the Global Targets for Stunting Anemia Breastfeeding and Wasting estimates the costs impacts and financing scenarios to achieve the World Health Assembly global nutrition targets for stunting anemia in women exclusive breastfeeding and the scaling up of the treatment of severe wasting among young children To reach these four targets the world needs US 70 billion over 10 years to invest in high impact nutrition specific interventions This investment would have enormous benefits 65 million cases of stunting and 265 million cases of anemia in women would be prevented in 2025 as compared with the 2015 baseline In addition at least 91 million more children would be treated for severe wasting and 105 million additional babies would be exclusively breastfed during the first six months of life over 10 years Altogether achieving these targets would avert at least 3.7 million child deaths Every dollar invested in this package of interventions would yield between US 4 and US 35 in economic returns making investing in early nutrition one of the best value for money development actions Although some of the targets

especially those for reducing stunting in children and anemia in women are ambitious and will require concerted efforts in financing scale up and sustained commitment recent experience from several countries suggests that meeting these targets is feasible These investments in the critical 1000 day window of early childhood are inalienable and portable and will pay lifelong dividends not only for children directly affected but also for us all in the form of more robust societies that will drive future economies

Contemporary Financial Intermediation Stuart I. Greenbaum,Anjan V. Thakor,Arnoud W. A. Boot,2019-05-14 Contemporary Financial Intermediation 4th Edition by Greenbaum Thakor and Boot continues to offer a distinctive approach to the study of financial markets and institutions by presenting an integrated portrait that puts information and economic reasoning at the core Instead of primarily naming and describing markets regulations and institutions as is common Contemporary Financial Intermediation explores the subtlety plasticity and fragility of financial institutions and credit markets In this new edition every chapter has been updated and pedagogical supplements have been enhanced For the financial sector the best preprofessional training explains the reasons why markets institutions and regulators evolve they do why we suffer recurring financial crises occur and how we typically react to them Our textbook demands more in terms of quantitative skills and analysis but its ability to teach about the forces shaping the financial world is unmatched Updates and expands a legacy title in a valuable field Holds a prominent position in a growing portfolio of finance textbooks Teaches tactics on how to recognize and forecast fluctuations in financial markets Beyond These Walls Tony Platt,2019-01-08 You should definitely read this book What really struck me in reading Beyond These Walls was that Tony Platt had very seriously and carefully considered the contributions of social movements feminist queer disability and labor Angela Davis Beyond These Walls is an ambitious and far ranging exploration that tracks the legacy of crime and

imprisonment in the United States from the historical roots of the American criminal justice system to our modern state of over incarceration and offers a bold vision for a new future Author Tony Platt a recognized authority in the field of criminal justice challenges the way we think about how and why millions of people are tracked arrested incarcerated catalogued and regulated in the United States Beyond These Walls traces the disturbing history of punishment and social control revealing how the criminal justice system attempts to enforce and justify inequalities associated with class race gender and sexuality Prisons and police departments are central to this process but other institutions from immigration and welfare to educational and public health agencies are equally complicit Platt argues that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies while private policing and global corporations are deeply and undemocratically involved in the business of homeland security Finally Beyond These Walls demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control Drawing upon a long tradition of popular resistance Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder
