

This packet is a list of things you should be able to do by the time you get into Calculus I. It's all those things that your precalc teachers said you would need to have memorized and know how to do! Imagine that! These are all examples of the topics that you should know and understand. You should be able to do all the material in this review packet without a calculator. If you are not fluent in this material you will be hampered in learning the new stuff. Additional practice can be found in chapter 1 of the calculus book as well. Do all work on separate paper.
