IJCACI 2021 is jointly organized by Jahangirnagar University, JU Bangladesh and South Asian University, SAU India. The book presents the novel contributions in areas of computational intelligence and it serves as a reference material for advance research. The topics covered are collective intelligence, soft computing, optimization, cloud computing, machine learning, intelligent software, robotics, data science, data security, big data analytics, and signal and natural language processing.

Advances in Computer Science, Intelligent Systems and Environment David Jin, Sally Lin, 2011-09-15 CSISE2011 is an integrated conference concentrating its focus upon Computer Science, Intelligent System, and Environment. In the proceeding, you can learn much more knowledge about Computer Science, Intelligent System, and Environment of researchers all around the world. The international conference will provide a forum for engineers, scientists, teachers, and all researchers to discuss their latest research achievements and their future research plan. The main role of the proceeding is to be used as an exchange pillar for researchers who are working in the mentioned field. In order to meet high standard of Springer's Advances in Intelligent and Soft Computing, the organization committee has made their efforts to do the following things: Firstly, poor quality paper has been refused after reviewing course by anonymous referee experts. Secondly, periodically review meetings have been held around the reviewers about five times for exchanging reviewing suggestions. Finally, the conference organization had several preliminary sessions before the conference. Through efforts of different people and departments, the conference will be successful and fruitful. We hope that you can get much more knowledges from our CSISE2011 and we also hope that you can give us good suggestions to improve our work in the future.
