A Lifetime of Puzzles Erik D. Demaine, Martin L. Demaine, Tom Rodgers, 2008-10-28 Martin Gardner has entertained the world with his puzzles for decades and inspired countless mathematicians and scientists. As he rounds out another decade, his colleagues are paying him tribute with this special collection that contains contributions from some of the most respected puzzlemasters, magicians, and mathematicians including John H. Conway, William R. Gosper, Ed Pegg Jr., Roger Penrose, Raymond Smullyan, Peter Winkler. And of course, there is something from the original puzzlemaster himself, Martin Gardner.

Sudoku Puzzles 36x36 Vol. IV Sanket Sarang, 2011-11-19 The book presents a set of 100 puzzles. Solving each puzzle calls for a real genius in you. Considering the time it may require to solve a puzzle, we have restricted the number of puzzles to 100 in this publication. All puzzles in this book are computer-generated with our own invented algorithm that is capable of generating all possible combination grids of sizes up to 81x81 and even beyond. As these puzzles are difficult to solve, we have also provided the solution to each puzzle in the book itself.

Lewis Carroll's Cats And Rats... And Other Puzzles With Interesting Tails Yossi Elran, 2021-06-08 British Israeli recreational mathematician, communicator, and educator Yossi Elran explores in depth six of the most ingenious math puzzles, exposing their long tails, the stories, trivia, quirks, and oddities of their history and, of course, the math and mathematicians behind them. In his unique Talmudic associative way, Elran shows the hidden connections between Lewis Carroll's Cats and Rats puzzle and the math of taxi driving, a number pyramid magic trick, and Hollywood movie fractals, and even how packing puzzles are related to COVID-19. Elran has a great talent for explaining difficult topics, including quantum mechanics, a topic he relates to some original operator puzzles, making the book very accessible for all audiences. With over 40 additional original puzzles and touching on dozens of hot math topics, this is a perfect book for math lovers, educators, kids, and adults, and anyone who loves a great read. Yossi Elran is co-author of our bestselling *The Paper Puzzle Book* and heads the Innovation Center at the Davidson Institute of Science Education, the educational arm of the world-renowned Weizmann Institute of Science in Israel.
