Why Hostgator is Most Popular Hosting Company?

Hostgator December coupons gives you big discount at first signup. Best coupon of the month is " **25webhostingoff**". If you decide to choose 3 years Baby Plan you can save much more. Here is the best available coupons list.

Hostgator is known as one of the best web hosting company in the world. Lots of companies offer you unlimited disk space but when you upload about 1 TB file they can suspend you. Or they offer you unlimited bandwidth but when you reach about 100GB monthly traffic they can add some extra fees that previously wasn't mentioned. But Hostgator gives you what they offer you at signup.

Server speed and resource usage are another important points. When you check out the speed of your server in different location of the world by using proxies or using some online speed test tools like webpagetest.org you can see very different page load speed country by country. This is because of the connection speed of the server and location of it of course. 100mbit speed of a server is optimal. But if there are lots of active websites in the same server this 100mbit connection speed divided so page load can be very slow. when i check the Hostgator Baby Plan servers each server (32gb ram and 8 core CPU) contain about 50-60 websites and most of them not very active. But most of webhosting company hosts hundreds of websites in the same server. This is the reason of why Hostgator is most popular than the others.
