Tourism and Tibetan Culture in Transition Ashild Kolas,2007-09-12 This book explores the relationship between tourism culture and ethnic identity in Tibet in focusing in particular on Shangrila a Tibetan region in Southwest China to show how local Tibetan culture is reconstructed as a marketable commodity for tourists It analyses the socio economic effects of Shangrila tourism in Tibet investigating who benefits economically whilst also considering its political implications and the ways in which tourism might be linked to the negotiation and reassertion of ethnic identity It goes on to examine the spatial re imagining provoked by the development of tourism and asks whether a tourist destination inevitably becomes a pseudo community for the visited Can a fictitious name invented for the sake of tourists still provide the natives of a place with a sense of identity This book argues that conceptions of place are closely linked to notions of social identity and in the case of Shangrila particularly to ethnic identity Viewing the spatial as socially constructed and place making as vital to social organisation this is a study of how place is constructed and contested It describes how local villagers and monastic elites have negotiated the area s religious geography how agents of the Communist state have redefined it as a minority area and how tourism developers are now marketing the region as Shangrila for tourist consumption It outlines the different place making strategies utilised by the various social actors including local villagers to create the communities in which they live monastic elites to invent a Buddhist Tibetan realm of religious geography agents of the People s Republic of China to define

the area as part of the communist state and tourism developers to market the region as Shangrila for tourist consumption Overall this book is an insightful account of the complex links between tourism culture and Tibetan ethnic identity in Tibet and will be of interest to a wide range of disciplines including social anthropology sociology human geography tourism and development studies *Kissed By A Deer* Margi Gibb, 2015-10-01 Prepare to be swept away by a story that is intimate true and utterly compelling Margi Gibb's much loved father dies and with her immediate family largely gone her life is changed irrevocably Immersing herself more deeply in art and music she travels to America to study the sacred art of the mandala exploring the wisdom traditions of Indigenous Indian peoples in the process Then after a serendipitous encounter back in Australia she travels to Dharamsala to care for children in an after school program at a Tibetan women's handicraft cooperative Her underlying passion is to initiate guitar lessons for Tibetan refugees What follows is unexpected Margi's developing bonds with two very different Tibetan men Tenzin and Yonten change her life in complex and enduring ways Eventually she journeys to Tibet *Kissed by a Deer* is a book about East and West It is a passionate quest for the personal and intellectual truth that only comes through lived experience Gibb's story gives us amazing places and wonderful characters people we come to love and care about despite their failings In its pages wisdom searchingly finds its humble roots in the connections of heart imagination and mind in the midst of the act of living *Divergent Paths* Richard A. Posner, 2016-01-04 Judges and legal scholars talk past one another if they have any conversation at all Academics criticize judicial decisions in theoretical terms which leads many judges to dismiss academic discourse as divorced from reality Richard Posner reflects on the causes and consequences of this widening gap and what can be done to close it **How to Write Essays for Standardized Tests** The Princeton Review, 2021-09-14 Master essays for standardized tests with The Princeton Review No matter how much writing you've done in school the timed essays you'll face on standardized tests present a whole new challenge This essential guide expertly analyzes what graders are looking for across each of these standardized high school tests and then helps you swiftly and effectively meet their requirements Steady your nerves and start preparing with Comprehensive coverages of AP ACT TOEFL ISEE and SSAT essay formats Specific writing strategies to help ensure you're fulfilling the right criteria for each essay type Annotated samples that show you how the grading rubrics are assessed Tips on how to better support your answer for every kind of essay including how to analyze textual qualitative and visual content and make calculations within an essay Additional material on unique topics such as foreign language essay approaches and more *Coercion and Wage Labour* Anamarija Batista, Viola Franziska Müller, Corinna Peres, 2023-12-07 *Coercion and Wage Labour* presents novel histories of people who experienced physical social political or cultural compulsion in the course of paid work Broad in scope the chapters examine diverse areas of work including textile production war industries civil service and domestic labour in contexts from the Middle Ages to the present day They demonstrate that wages have consistently shaped working people's experiences and failed to protect workers from coercion Instead wages emerge as versatile tools to

bind control and exploit workers Remuneration mirrors the distribution of power in labour relations often separating employers physically and emotionally from their employees and disguising coercion The book makes historical narratives accessible for interdisciplinary audiences Most chapters are preceded by illustrations by artists invited to visually conceptualise the book's key messages and to emphasise the presence of the body and landscape in the realm of work In turn the chapter texts reflect back on the artworks creating an intense intermedial dialogue that offers mutually relational translations and narrations of labour coercion Other contributions written by art scholars discuss how coercion in remunerated labour is constructed and reflected in artistic practice The collection serves as an innovative and creative tool for teaching and raises awareness that narrating history is always contingent on the medium chosen and its inherent constraints and possibilities Praise for Coercion and Wage Labour Coercion and Wage Labour is a pioneering volume It makes a well founded break with the widespread misconception that wage labour is by definition free from coercion The fourteen historical case studies lead to the conclusion that wage labourers too were subject to many forms of coercion and that usually their freedom was and is only relative But something else makes this book special throughout the text there are artistic illustrations that enter into a dialogue with the individual chapters which in turn reflect on the images This creates an inspiring interaction that complements the volume's interdisciplinary nature Marcel van der Linden International Institute of Social History Amsterdam
