the criminalization of human error Some suspect a just culture means letting people off the hook Yet they believe they need to remain able to hold people accountable for undesirable performance In this new edition Dekker asks you to look at accountability in different ways One is by asking which rule was broken who did it whether that behavior crossed some line and what the appropriate consequences should be In this retributive sense an account is something you get people to pay or settle But who will draw that line And is the process fair Another way to approach accountability after an incident is to ask who was hurt To ask what their needs are And to explore whose obligation it is to meet those needs People involved in causing the incident may well want to participate in meeting those needs In this restorative sense an account is something you get people to tell and others to listen to Learn to look at accountability in different ways and your impact on restoring trust learning and a sense of humanity in your organization could be enormous
