Wisdom and Resilience Overcoming Downside Risk Kazuyo Hanai, Rangarirai Gavin Muchetu, Laban Kithinji

Kinyua, Yoichi Mine, 2025-05-24 This book classifies and assesses the real and perceived risks associated with both the Covid 19 pandemic and government responses to it in seven African countries DR Congo Kenya Ethiopia South Africa Tanzania Uganda and Zimbabwe based on large scale quantitative and qualitative surveys conducted in 2022 2024 It also elucidates the people's resilience in overcoming the risks within their political social and cultural context Although research on COVID 19 has been conducted in various fields particularly in the medical field the analytical perspective of this book is unique COVID 19 prevention policies are considered to have seriously increased other risks such as hunger other infectious diseases interruption of education and various types of human rights violations including increased conflict violence against civilians

and political abuse Therefore this book argues that COVID 19 prevention policies as well as the pandemic itself should be regarded as the downside risk that triggers the deterioration of the other potential risks to vulnerable people Depicted here is the account of how trust in government community and family within the existing political social and cultural environment created pandemic politics as elections during the pandemic instrumentalized and politicized government prevention measures Economic distress threatened people s lives more than COVID 19 during lockdowns and severe behavioral restrictions and the spread of misinformation discouraged people from being vaccinated This book will be useful to policy makers and practitioners in international society who are preparing for the next pandemic based on the lessons learned from the COVID 19 pandemic The Youth Dividend Jan H. Hofmeyr,2012 *International Handbook on the Economics of Education* Geraint Johnes,Jill Johnes,2007-01-01 is a voluminous and timely collection of 18 essays that addresses a number of core issues on the economics of education An exhaustive survey of the literature on the role of universities as multi product firms at various levels and disciplines identifies the nature of the economies of scope and scale This enriches the volume further Economic Analysis Policy the endeavour of bringing together very knowledgeable contributors including some of the leading contributors to the literature in the UK and beyond to write a handbook on the economics of education is highly appreciated The Handbook contains 18 substantive chapters encapsulated by a brief introduction and an extensive and a very useful index the Handbook should be praised as a useful overview of the field of economics of education as it stands today Ludger W mann Economic Issues This major Handbook comprehensively surveys the rapidly growing field of the economics of education It is unique in that it comprises original contributions on an exceptional range of topics from a review of human capital signalling and screening models to consideration of issues such as educational externalities and economic growth funding models determinants of educational success the educational production function educational standards and efficiency measurement Labour market issues such as the market for teachers and the transition of students from school to work are also explored The International Handbook on the Economics of Education will be warmly welcomed by academic economists educational researchers and practitioners in educational management as well as policymakers Comprising specially commissioned articles the Handbook will become indispensable reference for this ever topical field of study

The editors are former heads of student affairs portfolios at two leading South African universities. Student Financing of Higher Education Donald Heller, Claire Callender, 2013-06-07. The financing of higher education is undergoing great change in many countries around the world. In recent years many countries are moving from a system where the costs of funding higher education are shouldered primarily by taxpayers through government subsidies to one where students pay a larger share of the costs. There are a number of factors driving these trends including: A push for massification of higher education in the recognition that additional revenue streams are required above and beyond those funds available from governments in order to achieve higher participation rates; Macroeconomic factors which lead to constraints on overall government revenues; Political factors which manifest in demands for funding of over services thus restricting the funding available for higher tertiary education; A concern that the returns to higher education accrue primarily to the individual rather than to society and thus students should bear more of the burden of paying for it. This volume will help to contribute to an understanding of how these trends occur in various countries and regions around the world and the impact they have on higher education institutions, students and society as a whole. With contributions for the UK, USA, South Africa and China, this vital new book gives a truly global picture of the rapidly changing situation. *Transforming Universities in South Africa*, 2020-08-31. The idea of transformation in higher education underpins all policy documents, academic literature and on-going debates in South Africa. *Transforming Universities in South Africa: Pathways to Higher Education Reform* responds to the pressing need to comprehensively review the post-apartheid experience and assess where South Africa's higher education stands across the continent and globally, particularly within the country's efforts to overcome decades of socio-economic imbalances. It addresses the question of whether South Africa's transformation strategy from apartheid to democracy was simply a symbolic new flag-raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally. This volume's ultimate purpose is to provide a basis for imagining new futures in which South Africa's higher education in the context of Africa and the global world takes centre stage.

Universities, Employability and Human Development Melanie Walker, Samuel Fongwa, 2017-01-20. The book makes a significant contribution to critical higher education studies, specifically to graduate employability research and to capabilities and education research. The book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi-dimensional and intersectional human capabilities conceptualisation of graduate employability. The book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality. Qualitative and quantitative data from multiple case study universities in South Africa are used to explore the

perceptions and experiences of diverse students lecturers support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development The book will be highly relevant to students scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability *Corrupted* Jonathan D Jansen,2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions *Manage Your Money Like a Grownup* Sam Beckbessinger,2020-09-01 You re never too young to start saving *Manage Your Money Like a Grownup* by bestselling author Sam Beckbessinger aims to get younger readers thinking about the basics of money laying a solid foundation in financial education that most grownups today never had With illustrations jokes and fun facts designed to appeal to even the most easily bored reader this book covers all the basics South African teenagers need to know about money such as The relationship between earning saving and spending How investing works Why compound interest is a superpower Why we pay taxes and The ethics of money Informed by discussions with real teens and their parents this book equips readers with practical tips for earning and investing money at any age as well as providing questions to spark lively dinner table conversations
