The Next Twenty-five Years David Lee Featherman, Marvin Krislov, Martin Hall, 2009-12-18 A must read for anyone who cares about the future of higher education in diverse democracies

OECD Development Policy Tools Evidence-based Policy Making for Youth Well-being A Toolkit OECD, 2017-10-17 With 1.2 billion people today's youth population aged 15-24 represents the largest cohort ever to enter the transition to adulthood. Close to 90% of these young people live in developing countries and the numbers will practically double in the least developed countries

Campus Student Activism, Politics, and Citizenship in the 21st Century Tshishonga, Ndwakhulu, 2025-04-03 Student activism and citizenship remain an integral part of the governance of academic institutions, democratizing the learning environment and advancing democratic values and societal change. As a result, student activism has become a key aspect of the global higher education landscape. Individually and through the student councils, students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship. Through student activism and citizenship, students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education's decision-making processes. Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth.

Campus Student Activism Politics and Citizenship in the 21st Century examines the dynamics of campus politics through student activism and citizenship perspectives, academia, public, private, and civil society sectors. It explores how student leadership engages university society stakeholders including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students. This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers, government officials, sociologists, political scientists, academicians, and researchers.

From School to Higher Education? Michael Cosser, Jacques Du Toit, 2002 This substantive report is essential reading for those involved in higher education planning and policy making.

Let's Talk About Varsity, 2009 *Electronic Government and the Information Systems Perspective* Andrea Kö, Enrico Francesconi, Adeleh Asemi, Gabriele Kotsis, A Min Tjoa, Ismail Khalil, 2023-07-28 This book constitutes the proceedings of the 12th International Conference on Electronic Government and the Information Systems Perspective EGOVIS 2023 which took place in Penang, Malaysia during August 28-30, 2023. The 8 full papers presented together with 1 short paper were carefully reviewed and selected from a total of 17 submissions. The Youth Dividend Jan H. Hofmeyr, 2012 *Fees Must Fall* Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt. The student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly, it radically questioned the socio-political dispensation resulting from the 1994 social

pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt *Government Managing Risk* Bruce Chapman,2006-09-27 As higher education rates increase throughout the westernised world student support is recognised as crucial in many countries This new book by Bruce Chapman analyses income contingent loans and particularly their use in supporting students **ETDP SETA Scarce & Critical Skills Guide 2010/11** , **Discrimination in an Unequal World** Miguel Angel Centeno,Katherine S. Newman,2010-09 Is globalization making our world more equal or less Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge *Discrimination in an Unequal World* explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories **South Africa Can Work** Frans Rautenbach,2017-08-18 What will it take to turn South Africa around In this insightful and provocative book Frans Rautenbach proposes a complete overhaul of policy thinking and provides fresh arguments that effectively address South Africa s unemployment race problems and lack of education Rautenbach examines the fundamental problem of rent seeking to which he proposes two antidotes the free market and decentralisation of government Along the way he tackles

holy cows such as affirmative action trade unions labour law and welfare payments He also addresses contentious topics such as racism white privilege political correctness state funding of higher education and mounting evidence that trade unions substantially suppress employment growth Written by a labour lawyer with a proven track record in a range of policy issues South Africa Can Work speaks effectively to a cross section of readers of all disciplines and brings sorely needed good news
