## Similarities Of Bursary:

Theory and Method in Higher Education Research Jeroen Huisman, Malcolm Tight, 2020-11-09 This volume of Theory and Method in Higher Education Research contains analyses and discussions of amongst others relational working corpus linguistics data dialogues instrumental variables participatory pedagogy diverse participation policy discourse quality management and knowledge structures of research     *Solar and Stellar Activity, Similarities and Differences* C. John Butler, John Gerard Doyle, 1999     Effective Language Learning Suzanne Graham, 1997 This book investigates some of the learning processes of students of French and German as they begin language learning at an advanced level a stage which is frequently problematic By looking at the learning strategies employed by both successful and less successful language students the author elucidates some of the key cognitive and affective processes which facilitate advanced level language learning The implications of this for the classroom are discussed in detail leading to practical recommendations for learning and teaching strategies A central theme is the need to teach explicitly the proficient use of learning strategies and suggestions are made as to how this may be achieved in the language classroom     **Teaching Psychology in Higher Education** Dominic Upton, Annie Trapp, 2010-01-22 This ground breaking book is the first to address the learning and teaching issues associated with psychology in Higher Education in the UK and Europe Presents effective evidence based practice and advice for both experienced and new lecturers Covers challenging areas of psychology teaching such as research methods and statistics supervision of research projects and management of online learning Relevant for European Universities aligning with the Bologna Declaration     **Financing Access and Equity in Higher Education** , 2019-02-11 The demand for higher education worldwide is booming Governments want well educated citizens and knowledge workers but are scrambling for funds The capacity of the public sector to provide increased and equitable access to higher education is seriously challenged What are the on the ground realities of developing financial resources and policies to meet the twin goals of equity and access without jeopardizing quality This volume provides in depth reports from selected countries and sub regions Morocco Korea England Uganda Poland Oman East and southern Africa Southeast Asia Brazil and Egypt Each chapter is written by a seasoned educator participating in the Fulbright New Century Scholar program for 2007 2008 Given the near universal constraints of declining resources but increasing enrollments the authors identify common trends such as the public private divide the privatization of the public sector and diversification of funding To address these issues the chapters examine a surprising variety of policy instruments such as means testing targeted subsidies cost sharing institutional aid student bursaries and tax exemptions     Social Media Homicide Confessions Elizabeth Yardley, 2017-09-20 The relationship between crime and social media has become an increasingly important topic in a networked world However the use of social media in relation to violent crime is little understood This unique book by an expert in the field addresses this gap by analysing what those involved in homicide do with social media Using three international cases in which

perpetrators confessed to homicide on social media it investigates the practices of those involved providing a groundbreaking conceptual framework of use to criminologists It argues that such confessions convey important insights not only into the individual offender but also the social and cultural context of contemporary homicide **Including Voices** Richard Rose, Michael Shevlin, 2024-06-07 Through the presentation of research and an examination of exclusionary conditions and the ways in which these are being challenged the editors and authors present an important debate focused upon human rights and practical application of inclusive practices **Catholic Schools and the Interests of the Poor** Maria Ugonna Rita Igbo, 2023-10-26 The inspiration behind this book emanated from earlier doctoral research that focused on the preferential option for the poor Subsequent reflections focused more on the idea of religious schools subsidizing fees for poor children The question is How can the schools get the funding to offer free education or subsidize fees for the children How does this reflect on each school's mission integrity These questions have preoccupied the thoughts of the author for a long period The Catholic schools in Nigeria are categorized as private schools and are perceived to be expensive However people who have these views can hardly understand that most Catholic schools in Nigeria do not receive subsidies from the government at all levels in contrast to the schools in countries such as Belgium Germany New Zealand the Netherlands England Scotland and Ireland where Catholic schools receive significant support from public funds The argument for the high fees is that lay teachers have to be well paid to enable them to function effectively and selflessly There is also the need for an efficient supply of quality educational facilities and maintenance of school infrastructure Therefore if Catholic schools are expensive the Church will be failing in its duty to offer educational services to the poor and to those who suffer from deprivation These issues have been carefully analysed and dealt with in this book and some suggestions are proffered that can help the schools to maintain their mission integrity in dealing with the principle of the preferential option for the poor This book beseeches Catholic school board members other Christian denominations and religious organizations non governmental organizations philanthropists individuals and other interested parties to come to the aid of the poor by using education as an instrument The Journal of Education ,1935 The Education Gazette of the Province of the Cape of Good Hope Cape of Good Hope (South Africa). Education Department, 1918 *Teaching to discern* Hernando Arturo, Estévez Cuervo, 2019-11-30 The issue of academic environments involves both research and practice It gathers theoretical and practical pieces of knowledge for a permanent analysis and evaluation of pedagogy content and accomplishments in the educational field Moreover educational practices no longer occur within the boundaries of a specific field in a globalized world those practices must overcome their traditional boundaries in order to expand to different disciplines and to different ways of understanding pedagogy In our time knowledge travels ideas and experiences are shared in educational platforms worldwide while educators and students create novel ways to collectively participate in research projects that contribute to a greater understanding of the universe The anthology *Teaching to Discern Forming Connections Decolonizing Perspectives*

aims to provide a novel context for academic dialogue on globalized pedagogical practices pecifically it focuses on what it means to teach abroad which means discussing methodologies pedagogies and contents used by educators who have had the opportunity of teaching in a foreign country This book is a dialogue that engages academic experiences in a theoretically expansive and encompassing methodological and content driven framework around the topic of teaching abroad **Web Information Systems and Mining** Fu Lee Wang,Zhiguo Gong,Jingsheng Lei,2010-10-12 The 2010 International Conference on Web Information Systems and Mining WISM 2010 was held October 23 24 2010 in Sanya China WISM 2010 received 603 submissions from 20 countries and regions After rigorous reviews 54 hi quality papers were selected for publication in the WISM 2010 proceedings The acceptance rate was 9% The aim of WISM 2010 was to bring together researchers working in many different areas of Web information systems and Web mining to foster the exchange of new ideas and promote international collaboration In addition to the large number of submitted papers and invited sessions there were several internationally well known keynote speakers On behalf of the Organizing Committee we thank Hainan Province Institute of Computer and Qiongzhou University for its sponsorship and logistics support We also thank the members of the Organizing Committee and the Program Committee for their hard work We are very grateful to the keynote speakers invited session organizers session chairs reviewers and student helpers Last but not least we thank all the authors and participants for their great contributions that made this conference possible October 2010 Fu Lee Wang Gong Zhiguo Xiangfeng Luo Jingsheng Lei

**Resisting Qualifications Reforms in New Zealand** ,2019-02-18 New Zealand has been a veritable laboratory for a range of social experiments in the last twenty years including an arranged marriage with neo liberal economic policies during the late 80s and 90s These experiments extended to education where students teachers teacher educators and researchers have experienced wide ranging reforms in administration curriculum and qualifications The most contentious of these have been a series of untriallylled and radical qualifications reforms This book offers a critical examination of these reforms from the perspective of a group of educators who resisted them by doing the unthinkable devising their own national qualification and making it work Colonial Reports--annual ,1938 *Impact in Doctoral Education* Emma Parry,Colin Pilbeam,2024-04-09 Demonstrating how impact can be created and derived from doctoral programmes this book focuses on their influence on academic knowledge policy and practice Significantly it highlights the crucial impact of these programmes on the individual and the enduring consequences of this Drawing on their extensive experience and conversations with stakeholders in doctoral education from around the world and incorporating real case examples the authors provide practical guidance throughout the book which enables readers to enhance the design of new and existing doctoral programmes for greater impact Each chapter ends with questions to stimulate reflection on the readers experience of impact from doctoral education The concluding chapter outlines a manifesto for enhancing and ensuring impact from doctoral research in the future With insights into the impact of doctoral programmes on individual researchers this book will be essential reading for scholars of

management education as well as being a valuable resource for Higher Education administrators and senior academics around the world tasked with increasing impact from their doctoral programmes
