Historical Dictionary of Italian Cinema Gino Moliterno, 2020-12-08 Italian cinema is now regarded as one of the great cinemas of the world Historically however its fortunes have varied Following a brief moment of glory in the early silent era Italian cinema appeared to descend almost into irrelevance in the early 1920s A strong revival of the industry which gathered pace during the 1930s was abruptly truncated by the advent of World War II The end of the war however initiated a renewal as films such as *Roma citt aperta* *Rome Open City* Sciusci Shoeshine 1946

and *Ladri di biciclette* *Bicycle Thieves* 1948 flagbearers of what soon came to be known as Neorealism attracted unprecedented international acclaim and a reputation that only continued to grow in the following years as Italian films were feted worldwide Ironically they were celebrated nowhere more than in the United States where Italian films consistently garnered the lion's share of the Oscars with Lina Wertmüller becoming the first woman to ever be nominated for the Best Director award This second edition of *Historical Dictionary of Italian Cinema* contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on major movements directors actors actresses film genres producers industry organizations and key films This book is an excellent resource for students researchers and anyone wanting to know more about Italian Cinema

Mario Bava Leon Hunt, 2022-02-24 How do we approach a figure like Mario Bava a once obscure figure promoted to cult status This book takes a new look at Italy's maestro of horror but also uses his films to address a broader set of concerns What issues do his films raise for film authorship given that several of them were released in different versions and his contributions to others were not always credited How might he be understood in relation to genre one of which he is sometimes credited with having pioneered This volume addresses these questions through a thorough analysis of Bava's shifting reputation as a stylist and genre pioneer and also discusses the formal and narrative properties of a filmography marked by an emphasis on spectacle and atmosphere over narrative coherence and the ways in which his lauded cinematic style intersects with different production contexts Featuring new analysis of cult classics like *Kill Baby Kill*
