

ATTACKER FOCUS: HOW TO BE MORE CLINICAL IN FRONT OF GOAL

FIRST TOUCH

A good first touch can allow an attacker:

- To gain an extra yard on a defender
- To turn a half chance into a great chance
- To open up space for a shot

TRAINING TIP: Focus on receiving the ball on the edge of the box, taking a touch past a cone and then shooting.

AWARENESS

Being instinctive in front of goal is something thats hard to teach players. However, practicing timing runs into the box and taking shots early can be a useful practice.

TRAINING TIP: When pressing the opposition defence always assume they are going to make a mistake. Anticipate a bad pass back to the goalkeeper for you to intercept.

FIND THE SPACES

Attacking players should always try to position themselves in between defenders, as when they receive the ball it helps them to create space and find an angle for a shot.

TRAINING TIP: During games at training, focus on taking up positions between the centre halves and the full-backs on either side of the defensive line.

GET YOUR HEAD UP

Keeping your head up is quite an obvious point, however many players forget to do it. A quick glance just before you shoot, to see where the goal can be vital in goalscoring opportunities.

TRAINING TIP: It can be useful to practice being played through 1 on 1 at training with a focus of getting your head up just before you pull the trigger.

COMPOSURE

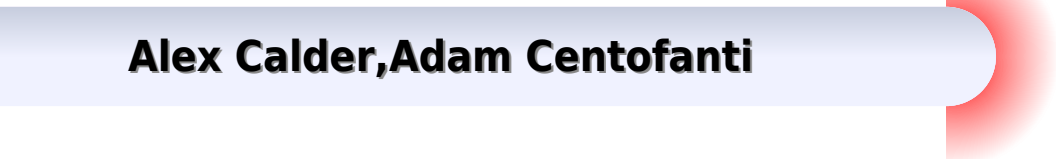

The key thing to think about is trying to stay as calm as possible in front of goal the more you panic the more likely you are to miss your chance.

TRAINING TIP: When in 1v1 situations with the goalkeeper try to focus on what position you are in and where the goalkeeper is in relation to where the goal is. Also try and focus on different types of finishes dependent on the situation.
