The Existential Foundations of Political Economy Christopher M. England,2019-10-23 This

volume argues that economic thought has long been shaped by deeply human forms of attachment anxiety desire fear of suffering and death and even historical speculation about the ultimate destiny of humanity Starting in the 17th century modern economics began to incorporate patterns of speculation and rhetoric that mirror postulates found in religion and the philosophy of history This text demonstrates that the political significance of economic theory can only be fully understood when the existential commitments that motivated its seminal thinkers from Smith and Marx to Hayek and beyond have been excavated Featuring incisive examinations and revisionist interpretations of Jean Jacques Rousseau Adam Smith Karl Marx F A Hayek and Karl Polanyi it is powerfully written and exhaustively researched It will appeal to anyone interested in political economy the history of political thought or the roots of contemporary ideologies **Gilles Deleuze and Félix Guattari** François Dosse, 2011 In May 1968 Gilles Deleuze was an established philosopher teaching at the innovative Vincennes University just outside of Paris Félix Guattari was a political militant and director of an unusual psychiatric clinic at La Borde Their meeting was unlikely and the two were introduced in an arranged encounter of epic consequence From that moment on Deleuze and Guattari engaged in a surprising productive partnership collaborating on several groundbreaking works including *Anti Oedipus* *What Is Philosophy* and *A Thousand Plateaus* François Dosse a prominent French intellectual examines the prolific if improbable relationship between two men of distinct and differing sensibilities Drawing on unpublished archives and hundreds of personal interviews Dosse elucidates a collaboration that lasted more than two decades underscoring the role that family and history particularly the turbulence of May 1968 played in their monumental work He also takes the measure of Deleuze and Guattari's posthumous fortunes and weighs the impact of their thought within intellectual academic and professional circles Contract with the Skin Kathy O'Dell, 1998 Having oneself shot Putting out fires with the bare hands and feet Biting the body and photographing the marks Sewing one's own mouth shut all in front of an audience What do these kinds of performances tell us about the social and historical context in which they occurred Fascinating and accessibly written *CONTRACT WITH THE SKIN* addresses the question in relation to psychoanalytic and legal concepts of masochism 34 photos **Body Art/performing the Subject** Amelia Jones, 1998 With great originality and scholarship Amelia Jones maps out an extraordinary history of body art over the last three decades and embeds it in the theoretical terrain of postmodernism The result is a wonderful and permissive space in which the viewer can wander Moira Roth Trefethen professor of art history Mills College Frameworks of Time in Rousseau Jason Neidleman, Masano Yamashita, 2023-10-12 *Frameworks of Time in Rousseau* explores the ways in which Jean Jacques Rousseau envisaged time as a diagnostic tool for understanding the state of society and the predicaments of modernity Central to his conceptualization of both nature and history time also plays a unique role in Rousseau's literary and aesthetic explorations of selfhood and affect This book brings into dialogue specialists from education political theory literature and cultural studies with the aim of underscoring Rousseau's contributions to themes that preoccupy us today such as the

appreciation of slow time the uncounted time of women's lives and temporal challenges related to politics and the economy

Tolerance Lars Tønder, 2013-10-07 Tolerance is often considered a practice of restraint motivated by either respect or benevolence But might there be something else to the practice of tolerance that makes it more than a way of constricting the actions of citizens who disagree In this pioneering book Lars Tønder turns the attention to tolerance's sensorial side in order to clarify the circumstances in which tolerance can become a source of empowerment and pluralization that goes beyond the image of citizenship currently on offer in contemporary democratic theory

Gender, Politics, and Allegory in the Art of Rubens Lisa Rosenthal, 2005-09-05 Gender Politics and Allegory in the Art of Peter Paul Rubens examines the intertwined relationship between paintings of family and marriage and of war peace and statehood by the Flemish master Drawing extensively upon recent critical and gender theory Lisa Rosenthal reshapes our view of Rubens' works and of the interpretive practices through which we engage them Close readings offer new interpretations of canonical images while bringing into view other powerful works which are less familiar The focus on gender serves as a catalyst that enables an original way of reading visual allegory giving it a dynamic multivalence undiscovered by traditional iconographic methods

Rumors of Revolution Jennifer Tsien, 2023-05-08 In 1682 the French explorer Ren Robert Cavelier de La Salle claimed the Mississippi River basin for France naming the region Louisiana to honor his king Louis XIV Until the United States acquired the territory in the Louisiana Purchase more than a century later there had never been a revolution per se in Louisiana However as Jennifer Tsien highlights in this groundbreaking work revolutionary sentiment clearly surfaced in the literature and discourse both in the Louisiana colony and in France with dramatic and far reaching consequences In *Rumors of Revolution* Tsien analyzes documented observations made in Paris and in New Orleans about the exercise of royal power over French subjects and colonial Louisiana stories that laid bare the arbitrary powers and abuses that the government could exert on its people against their will Ultimately Tsien establishes an implicit connection between histories of settler colonialism in the Americas and the fate of absolutism in Europe that has been largely overlooked in scholarship to date

Clint Eastwood and Issues of American Masculinity Drucilla Cornell, 2009-08-25 In this risk taking book a major feminist philosopher engages the work of the actor and director who has progressed from being the stereotypical man's man to pushing the boundaries of the very genres the Western the police thriller the war or boxing movie most associated with American masculinity Cornell's highly appreciative encounter with the films directed by Clint Eastwood revolve around the questions What is it to be a good man and What is it to be not just an ethical person but specifically an ethical man Focusing on Eastwood as a director rather than as an actor or cultural icon she studies Eastwood in relation to major philosophical and ethical themes that have been articulated in her own life's work In her fresh and revealing readings of the films Cornell takes up pressing issues of masculinity as it is caught up in the very definition of ideas of revenge violence moral repair and justice Eastwood grapples with this involvement of masculinity in and through many of the great symbols of American life including cowboys boxing

police dramas and ultimately war perhaps the single greatest symbol of what it means or is supposed to mean to be a man Cornell discusses films from across Eastwood's career from his directorial debut with *Play Misty for Me* to *Million Dollar Baby* Cornell's book is not a traditional book of film criticism or a cinematographic biography Rather it is a work of social commentary and ethical philosophy In a world in which we seem to be losing our grip on shared symbols along with community itself Eastwood's films work with the fragmented symbols that remain to us in order to engage masculinity with the most profound moral and ethical issues facing us today

Returning the Gift Rebecca Colesworthy, 2018-10-15 From debates about reparations to the rise of the welfare state the decades following World War I saw a widespread turn across disciplines to questions about the nature and role of gifts What is a gift What do gifts mean and do Which individuals and institutions have the authority to give Marshalling wide ranging interdisciplinary research *Returning the Gift* argues that these questions centrally shaped literary modernism The book begins by revisiting the locus classicus of twentieth century gift theory the French sociologist Marcel Mauss's 1925 essay *The Gift: The Form and Reason for Exchange in Archaic Societies* His title notwithstanding the gift Mauss envisions is not primitive or pre capitalist but rather a distinctively modern phenomenon Subsequent chapters offer sustained nuanced readings of novels and nonfiction by Virginia Woolf Jean Rhys Gertrude Stein and H D from the 1920s to 1940s underscoring the ways their writing is illuminated by contemporaneous developments in the social sciences economics and politics while also making a case for their unique contributions to broader debates about gifts Not only do these writers insist that literature is a special kind of gift but they also pose challenges to the gift's feminization in the work of both their Victorian forebears and contemporary male theorists Each of these writers uses tropes and narratives of giving of hospitality sympathy reciprocity charity genius and kinship to imagine more egalitarian social possibilities under the conditions of the capitalist present The language of the gift is not as we might expect a mark of hostility to the market so much as a means of giving form to the society in market society of representing everyday experiences of exchange that the myth of the free market works even now to render unthinkable

Masculinity and the Hunt Catherine Bates, 2013-03-21 *Masculinity and the Hunt* traces the imagery of the hunt in English literature of the 16th century exploring a set of practices and motifs that are central to the culture of the period

A Queer Chivalry Julia F. Saville, 2000 Others decry his monasticism as the regrettably oppressive regimen from which he was able to escape only occasionally through his sensuous sometimes overtly homoerotic verse Julia F. Saville uses Lacanian theories of sublimation and courtly love to reconfigure this long standing rift in the field of Hopkins criticism
