Congressional Budget Office,2000 **Rediscovering Republicanism** John Nantz,2021-10-19 When well designed institutions function properly people thrive Few institutions have been more ingeniously designed than the U S federal government via the Constitution in 1787 This auspicious beginning more than two centuries ago helps explain why the U S remains a magnet for opportunity seekers students entrepreneurs dissidents and persecuted believers Yet for decades now America s federal government has been underperforming Social Security and Medicare face looming insolvency The federal government s war on poverty has failed to end poverty and arguably made it worse In 2012 the United States Postal Service lost more money than the nation spent on the State Department and Amtrak has lost money every year since being created in 1971 How can an enduring institution so thoughtfully crafted now produce such poor results The federal government has grown so much because it serves a new and different vision American Progressivism American Progressives believed that democratically elected public minded federal politicians and employees could use federal programs to solve the nation s

greatest problems in a way no other American institution could. This idea justified the federal government's massive expansion today; the federal government runs over 1,500 programs and employs over 5% of the U.S. workforce. Yet federal results do not match Progressive expectations. Three key problems—windfall politics, the government surcharge, and complexity—failure overlooked by American Progressives—explain the federal government's consistent failures. American Progressives' rosy-eyed view of human nature and political institutions have not been borne out by the evidence. In an era of substantial political fermentation and debate, rediscovering and reapplying American Republicanism represents the best path forward for the United States. The federal government should retain many necessary responsibilities but turn over those where it has failed—for social welfare, federally provided services, and retirement savings, among others—to the country's state governments, civil society, and individual citizens, respectively.
