Social Work Theory and Ethics Dorothee Hölscher, Richard Hugman, Donna McAuliffe, 2023-03-17 This reference work addresses the ideas that shape social work Much of the social work literature addresses questions of theory and ethics separately so that the body of thought that is represented in social work scholarship and research creates a distinction between them However the differences between these categories of thought can be somewhat arbitrary This volume goes beyond this simple separation of categories Although it recognises that questions of theory and ethics may be addressed distinctly the connections between them can be made evident and drawn out by analysing them alongside each other Social work s use and development of theory can be understood in two complementary ways First theory from the social sciences

and other disciplines can be applied for social work second considered systematic examinations of practice have enabled theory to be developed out of social work These different approaches are usually referred to as theory for practice and practice theory The advancement of social work theory occurs often through the interplay between these two dimensions through research and scholarship in the field Similarly social work ethics draw on principles and concepts that have their roots in philosophical inquiry and also involve applied analysis in the particular issues with which social workers engage and their practices in doing so In this way social work contributes to wider debates through advancement of its own perspectives and knowledge gained through practice Social Work Theory and Ethics Ideas in Practice offers a unique approach by bringing together the complementary dimensions of theory with each other and at the same time with ethical research and scholarship It presents an analysis of the ideas of social work in a way that enables connections between them to be identified and explored This reference is essential reading for social work practitioners researchers policy makers academics and students as well as an invaluable resource for universities research institutes government ministries and departments major non governmental organisations and professional associations of social work The Routledge International Handbook of Social Work Teaching Jarosław Przeperski,Rajendra Baikady,2024-04-09 This handbook is a comprehensive text on social work education based on the narratives of social work educators practitioners and researchers from Asia and the Pacific North and South America Australia and Oceania and Europe It discusses innovations challenges pedagogy and tested methods of social work teaching at various levels of educational programmes The volume Examines key concepts that underpin debates concerning social work teaching research and practice Brings out key concerns debates and narratives concerning various teaching learning and pedagogical methods from different countries Documents principal perspectives of different stakeholders involved in social work education from educators and practitioners to novice social workers The Routledge International Handbook of Social Work Teaching will be an effective instrument in informing policy decisions related to social work teaching and pedagogy at the global and local levels It will be essential for educators researchers and practitioners within social work institutions and for professional associations around the world **Applying the Scholarship of Teaching and Learning beyond the Individual Classroom** Jennifer C. Friberg,Kathleen McKinney,2019-08-29 A survey of exemplary SoTL research projects and the use of their results on a broader scale When the Scholarship of Teaching and Learning SoTL emerged it often concentrated on individual faculty practice in one classroom it is now however increasingly common to find work in SoTL focused more broadly SoTL studies may engage with a cluster of courses a program a particular population of students a pedagogical approach or a field all of which are represented in the essays collected here by authors from a diverse array of institutions and nations This volume features examples of SoTL research conducted in and applied to a variety of contexts and disciplines offering a theoretical framework for an expanded vision of SoTL one that moves beyond the individual classroom The Routledge Handbook of Green Social Work Lena

Dominelli, 2018-03-28 Green social work espouses a holistic approach to all peoples and other living things plants and animals and the physical ecosystem emphasises the relational nature of all its constituent parts and redefines the duty to care for and about others as one that includes the duty to care for and about planet earth By acknowledging the interdependency of all living things it allows for the inclusion of all systems and institutions in its remit including both human made and natural disasters arising from the human made ones of poverty to chemical pollution of the earth's land waters and soils and climate change to the natural hazards like earthquakes and volcanoes which turn to disasters through human in action Green social work's value system is also one that favours equality social inclusion the equitable distribution of resources and a rights based approach to meeting people's needs to live in an ethical and sustainable manner Responding to these issues is one of the biggest challenges facing social workers in the twenty first century which this Handbook is intended to address Through providing the theories practices policies knowledge and skills required to act responsibly in responding to the diverse disasters that threaten to endanger all living things and planet earth itself this green social work handbook will be required reading for all social work students academics and professionals as well as those working in the fields of community development and disaster management *Doing Anti-Oppressive Social Work, 4th ed.* Donna Baines, Natalie Clark, Bindi Bennett, 2022-11-15T00:00:00Z Doing Anti Oppressive Social Work brings together critical social work authors to passionately engage with pressing social issues and to pose new solutions practices and analysis in the context of growing inequities and the need for reconciliation decolonization and far reaching change The book presents strong intersectional perspectives and practice engaging closely with decolonization re Indigenization resistance and social justice Like the first three editions the 4th edition foregrounds the voices of those less heard in social work academia and to provide cutting edge critical reflection and skills including social work's relationship to the state and social work's responsibility to individuals communities and its own ethics and standards of practice Indigenous Black racialized transgender disability and allied scholars offer identity engaged and intersectional analyses on a wide range of issues facing those working with intersectional cultural humility racism and child welfare poverty and single mothers critical gerontology and older people and immigrant and racialized families This 4th edition of Doing Anti Oppressive Social Work goes well beyond its predecessors updating and revising popular chapters but also problematizing AOP and engaging closely with new and emerging issues
