Sociolinguistics A Very Short Introduction:

Sociolinguistics: A Very Short Introduction John Edwards, 2013-07-11 Sociolinguistics deals with the social life of language in its sociocultural context. It is a branch of linguistics that looks less at the shape or sound of words, morphology or phonology and more at how our words and sentences are influenced by the society around us, for instance how the accent or the dialect we use has been shaped by where we come from or which social class we belong to. In this Very Short Introduction John Edwards offers the most up to date brief overview available of sociolinguistics with side trips into the sociology of language and psycholinguistics. He considers such topics as the different social evaluations of languages and dialects, the loaded significance of names and the importance of politically driven language planning and policy. The relationship between language and gender, sexist language, the language of poverty and the intertwining of language and religion are also dealt with here. Edwards stresses that while linguists see all dialects as equally valid in the wider world, powerful attitudes have always placed language varieties in social hierarchies. The author also looks at language more broadly, examining the ways in which languages rise or fall, the attempts to revive flagging or endangered varieties, the reasons why some languages came to dominate others and the special dynamics that affect contact between big and small languages. In both its role as our most powerful tool of communication and as the most immediate symbolic marker of human affiliation, language is pre-eminently a social phenomenon. This compact volume offers an invaluable introduction to this vital aspect of language. About the Series: Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology, Politics to Classics, Literary Theory to History and Archaeology to the Bible. Not simply a textbook of definitions, each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field. Every Very Short Introduction gives a readable evolution of the subject in question, demonstrating how the subject has developed and how it has influenced society. Eventually, the series will encompass every major academic discipline, offering all students an accessible and abundant reference library. Whatever the area of study that one deems important or appealing, whatever the topic that fascinates the general reader, the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable.

Creole Studies - Phylogenetic Approaches

Peter Bakker,Finn Borchsenius,Carsten Levisen,Eeva M. Sippola,2017-05-31 This book launches a new approach to creole studies founded on phylogenetic network analysis Phylogenetic approaches offer new visualisation techniques and insights into the relationships between creoles and non creoles creoles and other contact varieties and between creoles and lexifier languages With evidence from creole languages in Africa Asia the Americas and the Pacific the book provides new perspectives on creole typology cross creole comparisons and creole semantics The book offers an introduction for newcomers to the fields of creole studies and phylogenetic analysis Using these methods to analyse a variety of linguistic features both structural and semantic the book then turns to explore old and new questions and problems in creole studies Original case studies explore the differences and similarities between creoles and propose solutions to the problems of how to classify creoles and how they formed and developed The book provides a fascinating glimpse into the

unity and heterogeneity of creoles and the areal influences on their development. It also provides metalinguistic discussions of the creole concept from different perspectives. Finally, the book reflects critically on the findings and methods and sets new agendas for future studies. Creole Studies has been written for a broad readership of scholars and students in the fields of contact linguistics, biolinguistics, sociolinguistics, language typology and semantics.

The Languageing of Higher Education in the Global South Sinfree Makoni, Cristine G. Severo, Ashraf Abdelhay, Anna Kaiper-Marquez, 2022-01-06. By foregrounding language practices in educational settings, this timely volume offers a postcolonial critique of the languageing of higher education and considers how Southern epistemologies can be used to further the decolonization of post-secondary education in the Global South. Offering a range of contributions from diverse and minoritized scholars based in countries including South Africa, Rwanda, Sudan, Qatar, Turkey, Portugal, Sweden, India, and Brazil, *The Languageing of Higher Education in the Global South* problematizes the use of language in various areas of higher education. Chapters demonstrate both subtle and explicit ways in which the language of pedagogy, scholarship, policy, and participation endorse and privilege Western constructs and knowledge production and utilize Southern theories and epistemologies to offer an alternative way forward practice and research which applies and promotes Southern epistemologies and local knowledges. The volume confronts issues including integrationism, epistemic solidarity, language policy and ideology, multilingualism, and the increasing use of technology in institutions of higher education. This innovative book will be of interest to researchers, scholars, and postgraduate students in the fields of higher education, applied linguistics, and multicultural education. Those with an interest in the decolonization of education and language will find the book of particular use.

Contemporary Language

Motivation Theory Ali H. Al-Hoorie, Peter D. MacIntyre, 2019-11-18. This book brings together contributions from the leaders of the language learning motivation field. The varied chapters demonstrate how Gardner's work remains integral to a diverse range of contemporary theoretical issues underlying the psychology of language even today, 60 years after the publication of Gardner and Lambert's seminal 1959 paper. The chapters cover a wide selection of topics related to applied linguistics, second language acquisition, social psychology, sociology, methodology, and historical issues. The book advances thinking on cutting edge topics in these diverse areas, providing a wealth of information for both students and established scholars that show the continuing and future importance of Gardner and Lambert's ideas.

Critical Sexuality Studies, Lavender Languages, and Everyday Life Michelle Marzullo, William L. Leap, 2024-09-05. Critical Sexuality Studies (CSS) and Lavender Languages (LLL) are leading modes of inquiry in two different fields of sexuality studies. In this edited collection, chapters reveal how these can be combined to produce a new approach to analyzing language use, sexuality, and gender, and discourse on authority and power. The book demonstrates how together LLL and CSS iterate each other through their mutual concern with sexuality, gender, and power, especially when considering the materiality of daily life. Authors then compare CSS to other fields of sexuality studies to reveal commonalities and tensions that are addressed via the LLL-based interventions.

exemplified in this volume The body of the book organizes examples of Lavender Languages projects around a four part CSS framework with an introductory essay for each section indicating the connections between the CSS theme and the LLL examples The volume concludes with reflections showing how CSS interests in sexuality and power benefits from LLL with its emphasis on socially focused studies of discourse and text Strengthening pathways to future knowledge making this book provides a detailed roadmap for scholarly and activist engagements in language centered critical sexuality studies
