1. Discuss the importance of Conceptualisation and Operationalisation in social research with examples.

Introduction-Conceptualization and operationalization are crucial steps in social research as they help researchers define and measure abstract concepts. It provides a way to observe and measure the concepts in a concrete and quantifiable manner. Proper operationalization ensures that the research study is valid, reliable, and capable of producing meaningful results.

Example: Continuing with the example of happiness, operationalization would involve identifying specific variables or indicators that represent happiness.
