Austere Histories in European Societies Stefan Jonsson, Julia Willén, 2016-11-03 In recent years European states have turned toward more austere political regimes entailing budget cuts deregulation of labour markets restrictions of welfare systems securitization of borders and new regimes of migration and citizenship In the wake of such changes new forms of social inclusion and exclusion appear that are justified through a reactivation of differences of race class and gender Against this backdrop this collection investigates contemporary understandings of history and cultural memory In doing so the reader will join the leading European contributors of this title in examining how crisis and decline in contemporary Europe trigger a selective forgetting and remodelling of the past Indeed *Austere Histories in European Societies* breaks new paths in scholarship by synthesising and connecting current European debates on migration racism and multiculturalism In addition to this the authors present debates on cultural memory and the place of the colonial legacy within an extensive comparative framework and across the boundaries of the humanities and social sciences This book will appeal to scholars and students across the social sciences and humanities particularly in European studies memory studies sociology postcolonial studies migration studies European history cultural policy cultural heritage economics and political theory

Political Pressures on Educational and Social Research Karen Trimmer, 2016-05-12 *Political Pressures on Educational and Social Research* draws upon a variety of theoretical and methodological approaches to consider the problems that can arise when research findings diverge from political directions for policy Chapters explore the impacts this can have on the researchers as well as the influence it has on the research including the methodology and the publication of results The book offers innovative ways of seeing how these connect overlap and interact revealing particular issues of concern for researchers and evaluators in the context of research internationally Key topics include the power and positioning of research evidence based policy development ethics and the importance of research that seeks to explore and discover knowledge The book is divided into two sections The first presents chapters from international academics which provide a theoretical underpinning and discussion of power policy ethics and their influence on research resourcing autonomy purpose and methodology The second section explores specific case studies and instances from the authors own experiences in the field This book offers an interesting and enlightening insight into the sometimes political nature of research and will appeal to researchers evaluators and postgraduate students in the fields of education and the social sciences It will be of particular interest to those studying research methods

The World-System as Unit of Analysis Roberto Patricio Korzeniewicz, 2017-09-22 World system analyses have recast the study of between and within nation country inequality as constituent aspects of a single field of inquiry the study of inequality and social stratification as processes that always have been global in their very essence World system analyses maintain that global social stratification pivots around institutional arrangements that render distributional outcomes as simultaneously national

gendered racialized and global processes This book takes stock of some of the enduring theoretical and empirical contributions of a world system perspective and identifies promising directions for future inquiry and discussion Some chapters reassess the scope and methodologies of world system analysis around several key problems e g the spatial and temporal boundaries of global commodity chains the construction and challenge of various dimensions of social inequality systemic and antisystemic social movements Others take stock of areas in which world systems are promoting methodological innovation and or generating useful global data and identify questions that demand additional methodological and empirical attention for future research In different ways this book help us to critically reconsider some of the enduring legacies within a world system perspective such as Karl Polanyi s concept of the double movement or the distinction drawn by Giovanni Arrighi or Immanuel Wallerstein between systemic and antisystemic movements As argued by many of the authors in this book a world historical approach calls for greater sensitivity to the manifold ways in which conceptual boundaries change over time and space Taking seriously the issue of unit of analysis this book explores critically productive ways for better understanding global patterns of continuity and change

Social Capital and Sport Organisations

Richard Tacon, 2021-10-21 Drawing on primary research within voluntary sports clubs in the UK and secondary analysis of the wider international literature on social capital this text focuses on the micro processes of social capital development and how they play out in specific social settings In so doing it adds to existing research by developing a rich contextualised process based view of social capital in action Critically reviewing theoretical and empirical literature on social capital the book highlights the key current debates The empirical core of the book draws on ethnographic observation over 18 months at voluntary sports clubs in the UK including in depth interviews with sports club members and organisers The text explicitly seeks to set this empirical work in its wider context by considering the findings in relation to other international studies of social capital in both sports clubs and other types of organisation The book draws on international research from a whole range of countries UK USA Australia Canada Norway Denmark Netherlands Japan Vanuatu Czech Republic Germany and many others The book establishes a transferable process based understanding of how social capital develops both within sports clubs and beyond This is an illuminating reading for policymakers practitioners and researchers with an interest in the sociology of sport sport development sport management sport policy social theory social policy or social networks

Culture, Capitals and Graduate Futures

Ciaran Burke, 2015-08-27 In a time of too many graduates for too few jobs and in a context where applicants have similar levels of educational capital what other factors influence graduate career trajectories Based on the life history interviews of

graduates and framed through a Bourdieusian sociological lens *Culture Capitals and Graduate Futures* explores the continuing role that social class as well as cultural and social capitals have on both the aspirations and expectations towards and the trajectories within the graduate labour market Framed within the current context of increasing levels of university graduates and the falling numbers of graduate positions available in the UK labour market this book provides a critical examination of the supposedly linear and meritocratic relationship between higher education and graduate employment proposed by official discourses from government at both local and national levels Through a critical engagement with the empirical findings *Culture Capitals and Graduate Futures* asks important questions for the effective continuation of the widening participation agenda This timely book will be of interest to higher education professionals working within widening participation policy and higher education policy

Testing Regimes, Accountabilities and Education Policy Bob Lingard, Goli Rezai-Rashti, Wayne Martino, 2017-10-02 Around the globe various kinds of testing including high stakes national census testing have become meta policies steering educational systems in particular directions and having great effects on schools and on teacher practices as well as upon student learning and curricula There has also been a complementary global aspect to this with the OECD's PISA and IEA's TIMSS and PIRLS which have had impacts on national education systems and their policy frameworks While there has been a globalized educational policy discourse that suggests that high stakes standardised testing will drive up standards and enhance the quality of a nation's human capital and thus their international economic competitiveness this discourse still manifests itself in specific vernacular path dependent ways in different nations High stakes testing and its effects can also be seen as part of the phenomenon of the datafication of the world and policy as numbers linked to other reforms of the state including new public management network governance and top down and test based modes of accountability This edited collection provides theoretically and empirically informed analyses of these developments This book was originally published as a special issue of the *Journal of Education Policy*

Social Justice, Transformation and Knowledge James Avis, 2016-01-22 *Social Justice Transformation and Knowledge Policy Workplace Learning and Skills* examines the policy contexts in which lifelong learning vocational education and training and skill development is set It provides a critique of neo liberalism and its impact on vocational education and training and lifelong learning It interrogates potentially progressive policy interventions that take for granted capitalist relations as these can become a form of comfort radicalism that whilst calling for structural change remain lodged within capitalism Such analyses are limited particularly in austere conditions of worklessness with increasing numbers of workers surplus to the requirements of capital Offering detailed discussions within UK European and global contexts this book proves an insightful and critical text which illustrates Professor Avis extensive experience and knowledge of the field Adopting a substantive focus on debates and analysis with significance that extends beyond the particular policy context of England the book offers an exploration of arguments that suggest workplace learning carries with it progressive possibilities an examination of

models of class implicit within education policy and documents consideration of forms of governance and professionalism and their articulation to the pursuit of social justice an insight into discussions concerned with social justice knowledge as well as the current conditions of austerity in which education and social policy are emphasised Social Justice Transformation and Knowledge is a significant addition to the field It is an insightful and thought provoking book from which students lecturers and researchers with an interest in education studies education policy and social justice will greatly benefit from reading
