Society in Focus William E. Thompson, Joseph V. Hickey, Mica L. Thompson, 2016-04-20. Examining the role of mass media and information technology in contemporary society. Society In Focus Eighth Edition emphasizes the increasing diversity and globalization of societies everywhere. It is designed to help students think clearly and critically about sociological issues, concepts, and methods. Questioning is at the heart of this approach, and as students read this book, they are encouraged to become part of the sociological enterprise rather than remain passive observers. Every element of the text is designed to challenge students to evaluate social issues and guided by the sociological imagination to clearly formulate their own positions. By asking questions that demand sociological and creative thought, students are reminded that their conclusions and decisions, as well as their non-decisions and inaction, may have important social consequences. New to this edition: New coauthor Mica Thompson, an experienced teacher of introduction to sociology, brings a fresh new perspective as well as a wide array of different life experiences to this edition of Society in Focus. An expanded critical analysis in Chapter 1 introduces all forms of media and technology, and every chapter examines an aspect of their powerful social influence. Chapters 9, 16, and 17 have been updated to include the most recent worldwide financial and economic developments to help explain globalization and cultural diversity. Expanded application of feminist theory in every chapter to help students recognize the importance of gender diversity and the contributions of that theoretical perspective in sociology. Updated and brand new boxes throughout encourage students to take a closer look at society and selected social issues. American Book Publishing Record, 2003. **Cheering for Self** James S. Vass Jr., James Vass Jr., 2003-05-13. This book is a study of UW men's basketball fans during the 2001-2002 season and explores their proclivity to cheering for self during basketball events. The term basketball event is used rather than basketball game to make clear that everything connected to and seen, heard, or experienced before, during, and after a basketball game is included. The actual game itself is only part of

the basketball event An undercurrent runs throughout this participant observation mini ethnography dealing with access and the relative quality of that access to basketball events being affected by ones age class race and gender The prominent role of advertising in shaping basketball events and helping to construct fans as consumers of products both commercial and institutional during the process of cheering for self is central to this idea Cheering for self is the activity engaged in by individual fans after they find things to identify or connect with through personal investment Fans cheer for self indirectly Fans cheer for the team that they identify with Through the process of cheering for self while attending the basketball event people are taught how to become fans to consume a UW product the basketball event and to consume advertisers products People have a tendency to spend their entire life trying to impress others **Socio(onto)logy, a Disciplinary Reading** Ben Agger,1989 **Subject Guide to Books in Print** ,2001 The Cumulative Book Index ,1922 *Schools and Society* Jeanne H.
