Sociology Past Papers Cape Unit 1:

Prisoners of the Past Steven Friedman, 2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani Friedman argues that the difficulties besetting South African democracy are legacies of the past not products of the post 1994 era South Africa's democracy is often seen as a story of bright beginnings gone astray a pattern said to be common to Africa The negotiated settlement of 1994 it is claimed ended racial domination and created the foundation for a prosperous democracy but greedy politicians betrayed the promise of a new society In Prisoners of the Past Steven Friedman astutely argues that this misreads the nature of contemporary South Africa Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani Friedman shows that South African democracy's difficulties are legacies of the pre 1994 past The settlement which ushered in majority rule left intact core features of the apartheid economy and society The economy continues to exclude millions from its benefits while racial hierarchies have proved stubborn apartheid is discredited but the values of the pre 1948 colonial era the period of British colonization still dominate Thus South Africa's democracy supports free elections civil liberties and the rule of law but also continues past patterns of exclusion and domination Friedman reasons that this path dependence is not as is often claimed the result of constitutional compromises in 1994 that left domination untouched This bargain was flawed because it brought not too much compromise but too little Compromises extended political citizenship to all but there were no similar bargains on economic and cultural change Using the work of the radical sociologist Harold Wolpe Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past Sociology AS Jonathan Blundell, Patrick McNeill, Janis Griffiths, 2003-08 Especially created by three experienced examiners and authors involved in the AQA and OCR specifications this series has been developed using their teaching and learning experiences of the specifications This ground breaking set of resources encapsulates the knowledge understanding and skills required for the AS exam *On Class, Race, and Educational Reform* Antonia Darder, Cleveland Hayes II, Howard Ryan, 2023-03-23 *On Class Race and Educational Reform* provokes new dialogue between Marxists critical race theory scholars and other race inspired educational theorists with the aim of countering racism and class inequalities The book opens with a lead chapter by Howard Ryan a doctoral student with a background in teaching and labor organizing that substantively engages questions of class race and educational reform In response to the opening chapter educational theorists from Germany South Africa the UK and the USA provide insightful and penetrating responses highlighting the differences and similarities in perspectives The responses show how educators can overcome theoretical differences to create international collaborations and educational campaigns of solidarity that counter the treacherous impact of racism and class inequalities in the classroom and beyond The book includes a Foreword by Stephen Brookfield University of St Thomas USA and an Afterword by Cheryl Matias University of Kentucky USA **The Apartheid City and Beyond** David M. Smith, 2003-09-02 This book explains how apartheid

changed South Africa's cities how people responded to regain some control over urban life and how the forces of urbanization held back under apartheid will affect the post apartheid era Class, Race, and Inequality in South Africa Jeremy Seekings, Nicoli Nattrass, 2008-10-01 The distribution of incomes in South Africa in 2004 ten years after the transition to democracy was probably more unequal than it had been under apartheid In this book Jeremy Seekings and Nicoli Nattrass explain why this is so offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty first century They show that the basis of inequality shifted in the last decades of the twentieth century from race to class Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy or what Seekings and Nattrass call the distributional regime The post apartheid distributional regime continues to divide South Africans into insiders and outsiders The insiders now increasingly multiracial enjoy good access to well paid skilled jobs the outsiders lack skills and employment **Youth In South Africa** Ariane De Lannoy, Malose Langa, 2021-05-05 South Africa is characterised by a youthful population and the challenges and possibilities that characterise the young generation are both warning signs and beacons of hope for a nation founded on social justice Youth in South Africa Agency in visibility and national development takes stock of the nation's development as it affects young people Authors offer both personal and professional insights into the ways in which the youth navigate their own pathways to adulthood These include formal and informal engagements with politics as well as protest unemployment entrepreneurship education religion experiences with sexuality and violence and a multitude of other life experiences Contributors paint a picture of the initiative agency and resilience of the youth as well as the challenges before them Authors also identify the state of wait-hood faced by those unable to make the transition out of youth into full adulthood as a result of their socio economic circumstances and political context By engaging these experiences and insights and primarily informed by the inputs of young people the authors highlight the limitations of existing youth policies and frameworks The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment and by the messages the youth communicate about the limitations of current approaches **Families and Households in Post-apartheid South Africa** Acheampong Yaw Amoateng, Tim B. Heaton, 2007 Prior to South Africa's democratic transition in 1994 studies of families and households were limited by the structure of apartheid and the lack of adequate social and economic data Large social changes since that time have had a profound effect on public policy planning and service delivery and this monograph takes a new look at the lingering effects of colonialism and apartheid on South African families as well as their economic gains Experts from the fields of demographics economics psychology and sociology report their findings on living arrangements across rural and urban divides on access to toilets electricity water and housing on rates of marriage and divorce on fertility and infant mortality and on the housework and other chores performed by

children **Language in Cape Town's District Six** Kay McCormick, 2002 The book is a sociolinguistic case study of District Six an inner city neighbourhood in Cape Town characterized by language mixing and switching of English and Afrikaans Its early inhabitants included indigenous people freed slaves of African and Asian origin and immigrants from Europe and elsewhere The ravages of apartheid affected the residents attitudes towards their languages in various ways which are described The book examines the norms and practices regarding language choice for various functions and domains in the only surviving sector of District Six It also contains detailed analyses of extended bilingual conversations showing a range of social linguistic and discourse features Of particular interest is the paradoxical polarization and blending of the two languages They are strongly polarized symbolically and functionally yet they are also habitually blended in vernacular speech through lexical borrowing and intrasentential language switching This paradox has interesting implications for the construction of individual community and language identity Urbanisation, Housing and Poverty D. Hindson, Bharati Parekh, 1993 Globalization and Education Nelly P. Stromquist, Karen Monkman, 2000-09-06 The effects of globalization have long been dealt with in terms of economic and technological consequences but what about the influence on education Though still not a precise concept what we understand as Globalization is bringing forth numerous and profound changes in the economic cultural and political life of nations With increased opportunities for interaction and learning education around the world is rapidly becoming transformed The essays contained in this comprehensive yet readable book strive to provide a thorough examination of the impact these changes are having on how education is defined whom it serves and how it is assessed around the world Globalization and Education is organized into three sections The first addresses conceptual and theoretical issues underlying such notions as globalization internationalization and multilateralism The second presents empirical data from various countries and provides examples of shifts and transformations within a specific level or modality of the educational system The third looks at the totality of educational changes taking the nation as the unit of analysis **New Leaders, New Dawns?** Chris Brown, David Moore, Blair Rutherford, 2022-06-17 In late 2017 and early 2018 South Africa and Zimbabwe both experienced rapid and unexpected political transitions In Zimbabwe Robert Mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president Emmerson Mnangagwa Over a twelve day period in February 2018 South African president Jacob Zuma was prematurely forced from office by his former deputy president Cyril Ramaphosa The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions New Leaders New Dawns explores these political transitions and the way they were received Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of Ramaphosa and Mnangagwa foreshadowed Bringing together fourteen leading international scholars of southern Africa and adopting a political economy framework this volume argues that the changes in

leadership are welcome but insufficient While the time had come for Zuma and Mugabe to go there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face New Leaders New Dawns reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern Africa Employee Voice in Emerging Economies Amanda Pyman,Paul J. Gollan,Adrian Wilkinson,Cathy Xu,Senia Kalfa,2016-12-15 While much is known about employee voice in the developed world much less is known about its operation in emerging economies This volume explores the nature of employee voice in Argentine China India and South Korea providing a timely challenge to the predominant assumptions that underlie our knowledge of employee voice in the Western world **CAPE Sociology Unit 1** Caribbean Examinations Council,2013-06-30 Study Guides for CAPE have been developed and written by CXC to provide CAPE candidates in schools and colleges with resource materials to help them prepare for their exams Matching the topics in the syllabus the student friendly structure and content enable students to develop their skills and confidence as they approach the examination

Negotiating Local Knowledge Johan Pottier,Alan Bicker,Paul Sillitoe,2003-04-20 This is an original approach to debates about indigenous knowledge Concentrating on the political economy of knowledge construction and dissemination they look at the variety of ways in which development policies are received and constructed to reveal the ways in which local knowledge are appropriated and recast either by local elites or by development agencies Until now debates about indigenous knowledge have largely been conducted in terms of agricultural and environmental issues such as bio piracy and gene patenting This collection breaks new ground by opening up the theoretical debate to include areas such as post war traumatic stress counselling representations of nuclear capability architecture mining and the politics of eco tourism

Energy Abstracts for Policy Analysis ,1988 *Resources in Education* ,1988 *Voices of Guinness* Tim Strangleman,2019 Introduction the imagined garden The machine in the garden Creating industrial citizens The garden in the machine Remembering the work of the long boom Change at work The ghost in the machine The ruined garden Conclusion reimagining work Religion and Social Development in Post-apartheid South Africa Ignatius Swart,Hermann Rocher,Sulina Green,Johannes Erasmus,2010-10-01 It reflects original research and contributes to new developments in the field of theology and religion with regard to its developmental role within a transformation context The book may easily stand out in future as seminal in the way that it promoted the social development debate of the church and its organisational structures from an interdisciplinary focus Prof Antoinette Lombard Department of Social Work and Criminology University of Pretoria **Platformization and Informality** Aditi Surie,Ursula Huws,2023-05-11 In this edited volume scholars from Mumbai Bengaluru Jakarta Cape Town Sao Paulo and other cities of the global South explore the complex relationship between platformization and informality through a different lens Drawing on extensive theoretical quantitative and qualitative scholarship they provide both a useful overview and insights into the lived realities of gig work for platforms

covering a range of skills working conditions and forms of algorithmic management Platform work has attracted considerable attention from scholars in the global North who have tended to view it as a form of casualisation of work that was previously regulated But what about the global South where most employment especially that of women and migrant workers was historically already informal Beyond a focus on livelihoods employment and work the authors show how labour platforms take on powers that bring about broader impacts including those affecting identity and personal wellbeing They also illustrate the impact of platformization on the governance of affected sectors by public agencies thus affecting political power and how public data infrastructures contribute to further platformization The purpose of this pioneering work is to lay bare these interactions to then rebuild our understanding of platformization and its social political cultural and economic impacts Its insights are attentive to gender and ethnic differences as well as geographical ones *Power Without Responsibility* James Curran, Jean Seaton, 2018-10-08 This book attacks the conventional history of the press as a story of progress offers a critical defence and history of public service broadcasting provides a myth busting account of the internet a subtle account of the impact of social media and explores key debates about the role and politics of the media It has become a standard book on media and other courses but it has also gone beyond an academic audience to reach a wider public Hailed as a classic of media history and analysis by the Irish Times and a book that has cracked the canon by the Times Higher it has been translated into five languages This edition contains six new chapters These include the press and the remaking of Britain the rise of the neo liberal Establishment the moral decline of journalism the impact of social media and a history of attempts to reform the press It contains new research on the relationship between programmes institutions and society It places key UK institutions in the wider context of international affairs and their impact The book has been updated to take account of new developments like Brexit and the rise of Jeremy Corbyn and the shift in authority and legitimacy prompted by social media It does this with a clear explanation of how policy can shape media outcomes
