Preston Gralla, 2011-01-20 An introduction to the Droid X explains how to get the most out of the device with a hands on approach to learning the Droid X functions and applications a review of its features customization tips and tricks and instructions to help users master the Droid X **Soft Reset** Jonathan Blevins, 2015 When a computer freezes we hit CTRL ALT DEL to make a menu pop up We restart pieces of technology when they aren't running smoothly This action is called a soft reset A soft reset is a time saver when gamers are losing a battle in a videogame because it gives use a second attempt It's handy if we simply want to restart from where we last saved our virtual progress This action makes the software start over at a place before the error occurred without losing any of the hard data any of the progress My manuscript Soft Reset is I hope a reflection of how this process carries over from virtual life into real life In a world where videogames are by and large thought of as mindless time consuming unhealthy wastes of time this thesis Soft Reset was written to offer insight into gaming and to validate the gaming life for those who already understand it It explores the possibility that games are great educational devices that some simply were created as entertainment or as a mindless escape from reality and that a lot of times they cause friction between parents and their children out of misunderstanding This work explores my relationship with my mom dad and brother all the while offering some insight to the reader about how videogame culture has affected us both negatively and positively it has constituted a small exploration on the changing zeitgeist of our time Introduction

Motorola's Droid 2 Mohanbir S. Sawhney, 2017 After it introduced the extremely successful Droid smartphone into the market in 2009 Motorola quickly moved to develop the next generation Droid 2 before the next wave of smartphones including the rumored iPhone 4 flooded the market The development process was moving smoothly for the company when Verizon its biggest partner dropped a bombshell It wasn't happy with the mechanical camera button on the Droid 2 citing customer feedback and wanted it to be changed to a software button like the iPhone's This request immediately placed Motorola in the proverbial horns of a dilemma On the one hand it couldn't brush away the request of its biggest and most important partner On the other hand changing the camera button now would mean delaying the Droid 2's entry into the market Should the Droid 2 team remove the camera's hardware button in favor of a software button per Verizon's request or not John Smith the product manager leads the cross functional Droid 2 team The case setting is an emergency war room meeting to address this critical issue just weeks prior to launch John's objective is to obtain the salient facts and opinions of team members quickly so he can make an informed recommendation to his boss by the end of the day He is concerned that this last minute request for a design change will not only threaten to delay the launch which would have significant financial implications but could potentially create deep fissures in a hitherto effective team that had been running like a well oiled machine The case puts students in a situation that simulates a real world discussion and allows them to experience what it is like as a product manager to orchestrate a meeting with cross functional teams that have conflicting priorities and agendas It illustrates the challenges a product manager faces while striving to make important decisions with little or no direct

authority over the various teams After reading and analyzing this case students will be able to Experience the dynamics of cross functional teams in product management Practice running effective and productive meetings Practice bringing together various personalities and points of view Understand the importance of setting goals and clear expectations Internalize the importance of building relationships and influencing teams even when you do not have direct authority
