Framing Age Iris Loffeier, Benoît Majerus, Thibault Moulaert, 2017-05-12 Ageing populations have gradually become a major concern in many industrialised countries over the past fifty years drawing the attention of both politics and science The target of a raft of health and social policies older people are often identified as a specific and vulnerable population At the same time ageing has become a specialisation in many disciplines medicine sociology psychology to name but three and a discipline of its own gerontology This book questions the framing of old age by focusing on the relationships between policy making and the production of knowledge The first part explores how the meeting of scientific expertise and the politics of old age anchors the construction of both individual and collective relationships to the future Part II brings to light the many ways in which issues relating to ageing can be instrumentalised and ideologised in several public debate arenas Part III argues that scientific knowledge itself composes with objectivity bringing ideologies of its own to the table and looks at how this impacts discourse about ageing In the final part the contributors discuss how the frames can themselves be experienced at different levels of the division of labour whether it is by people who work on them legislators or scientists by people working with them professional carers or by older people themselves Unpacking the political and moral dimensions of scientific research on ageing this cutting edge volume brings together a range of multidisciplinary European perspectives and will be of use to all those interested in old age and the social sciences

Mieux vivre la vieillesse Paulette Guinchard Kunstler, Marie-Thérèse Renaud, 2006 Avec le perfectionnement de la médecine et des soins qui permettent de vivre plus longtemps les personnes âgées vont être de plus en plus nombreuses et peut-être aussi davantage montrées du doigt Ce livre tente de démontrer que la vieillesse n'est pas une punition mais porteuse d'espoir que la vie ne s'arrête pas avec la vieillesse

Renewing the Family: A History of the Baby Boomers Catherine Bonvalet, Céline Clément, Jim Ogg, 2014-10-10 This book traces the history of the baby boomers beginning with an explanation of the cause of the post war baby boom and ending with the contemporary concerns of ageing boomers It shows how the baby boomers challenged traditional family attitudes and adopted new lifestyles in the 1960s and 1970s Drawing on 90 interviews conducted with baby boomers living in London and Paris the book demonstrates how their aspirations for leisure and consumption converged with family responsibilities and obligations It shows how the baby boomers emerged from an authoritative upbringing to challenge some of the traditional assumptions of the family such as marriage and cohabitation The rise of feminism led by the baby boomers is examined together with its impact on family forms and structures The book shows how women's trajectories veered between the two extremes of family and employment swerving between the models of stay at home mother and working woman It demonstrates how new family configurations such as solo parenting and recomposed families were adopted by the baby boomers Today as they enter into retirement the baby boomers remain closely involved in the lives of their children and parents although relationships with elderly parents are maintained primarily through a sense of duty and obligation The book concludes that the baby boomers have both been influenced by and actors to the changes and transformations that have occurred to family life They reconciled and continue to reconcile individualism with family obligations As grandparents often with an ageing parent still alive the baby boomers wish to keep the independence that has been the hallmark of their generation whilst not abandoning family life

Gene@nautie , Quand devient-on vieille ? Aline Charles, 2007-10-12T00:00:00-04:00 Vieillesse démographique féminisation de la vieillesse et allongement de la retraite soulèvent maints débats maintes inquiétudes mais sont rarement situés dans une perspective historique C'est donc d'histoire de la vieillesse des femmes et du travail que traite cet ouvrage partir de quelques questions apparemment simples Quand devient-on vieille ou simplement un peu âgée dans le Québec de la deuxième moitié du XXe siècle Selon quels critères Comment le modèle de la retraite s'adapte-t-il aux femmes tant donné la complexité de

leurs rapports avec le marché du travail Le monde des hospitaliers de 1940 1980 l'Hôtel Dieu de Montréal et l'Hôpital Sainte Justine en particulier compose la trame de fond choisie pour répondre ces questions Trois groupes de femmes s'y cotoient et trois formes d'activités s'y entremêlent les salariées qui occupent un emploi les religieuses qui exercent leur vocation les bénévoles qui offrent leur temps L'analyse de milliers de trajectoires familiales et de nombreux documents institutionnels révèle alors la rapidité avec laquelle s'impose une nouvelle définition de la vieillesse Masculine l'origine et liée au marché de l'emploi la retraite 65 ans se répand comme une traînée de poudre dans cet univers pourtant si féminin si respecté pour sa jeunesse si dépendant du travail rémunéré des unes employées et du travail gratuit des autres religieuses bénévoles Pareille évolution signale la force autant que la sensibilité aux contextes historiques de cette question vieillesse retraite qui prédomine encore aujourd'hui tout en tant d'être remise en question **Viaggiatori.
