Redox Regulation in Skeletal Muscle Aging and Exercise Brian McDonagh, 2017-07-05 Skeletal muscle represents the largest organ of the human body and comprises about 40% of total body mass in humans Even in people who age well there is a noticeable loss of muscle strength and function that accelerates dramatically after the age of 60 a major factor in the reduction in life quality for the aging population One of the most effective interventions to maintain muscle mass and function is through exercise Skeletal muscle generates reactive oxygen and reactive nitrogen ROS RNS species in response to muscle contractions The concentration and species of ROS RNS generated can depend on the age and fitness of the

individual muscle fibre type and the intensity of the muscle contractions ROS RNS generate unique signaling cascades that are not only essential in skeletal muscle contraction and adaptation but also play a role in a wide array of cell processes including cell proliferation protein synthesis degradation immune response and antioxidant defense ROS RNS generated by contractions are involved in a co ordinated local response that is tightly controlled at all levels from generation to detoxification This collection of original articles and reviews highlights investigations that measure different aspects of the redox response of skeletal muscle to aging and exercise

Longwall Mining, 3rd Edition
Syd Peng,2019-10-29 In the past 13 years since the publication of Longwall Mining 2nd edition in 2006 although there have been no major changes in longwall mining technology and operations many incremental developments in the whole system as well as various subsystems of the existing longwall mining operational technologies as detailed in the 2nd edition have been added to this edition Major developments are automation and health and safety technology as well as equipment reliability thereby greatly increasing productivity and cutting cost In particular the longwall system can now run automatically cut by cut forever without operators intervention provided that the geology allows it Other health and safety features such as LASC personal proximity detection color lighting automatic shield water sprays and remote shearer control are fully operational There are more than 7000 sensors installed in current longwall mining systems The big data obtained and fast communication technology have been fully utilized to improve and solve operational problems in real time Those features are fully documented in the new edition In pursuit of high productivity and cutting cost life cycle management that increases equipment reliability has been implemented by OEM Automation improvement such as tail end automatic chain tensioner greatly extends AFC chain s service life Other incremental improvements including dust and methane controls entry development panel design and face move are addressed Additional operational issues such as extension of panel width and compatibility test are also discussed Since the last plow longwall mine was closed in 2018 the chapter on plow

longwalling has been dropped and in its place Automation of Longwall Components and System is added Also a new chapter Longwall Top Coal Caving Mining LTCC is added due to its successful application in Australia since 2005 Longwall Mining 3rd edition will be of interest to professionals and academics in the field of mining engineering specifically serving both as a reference work and an under graduate textbook but will also interest civil geomechanical and geological engineers and rock mechanics professionals as well as coal operators mining consultants researchers equipment manufacturers and government regulators

Entropy in Dynamical Systems Tomasz Downarowicz,2011-05-12 This comprehensive text on entropy covers three major types of dynamics measure preserving transformations continuous maps on compact spaces and operators on function spaces Part I contains proofs of the Shannon McMillan Breiman Theorem the Ornstein Weiss Return Time Theorem the Krieger Generator Theorem and among the newest developments the ergodic law of series In Part II after an expanded exposition of classical topological entropy the book addresses symbolic extension entropy It offers deep insight into the theory of entropy structure and explains the role of zero dimensional dynamics as a bridge between measurable and topological dynamics Part III explains how both measure theoretic and topological entropy can be extended to operators on relevant function spaces Intuitive explanations examples exercises and open problems make this an ideal text for a graduate course on entropy theory More experienced researchers can also find inspiration for further research *English Mechanic and Mirror of Science* ,1869
