Practical Wisdom and Resilience Overcoming Downside Risk Kazuyo Hanai, Rangarirai Gavin Muchetu, Laban Kithinji Kinyua, Yoichi Mine, 2025-05-24 This book classifies and assesses the real and perceived risks associated with both the Covid 19 pandemic and government responses to it in seven African countries DR Congo Kenya Ethiopia South Africa Tanzania Uganda and Zimbabwe based on large scale quantitative and qualitative surveys conducted in 2022 2024 It also elucidates the people's resilience in overcoming the risks within their political social and cultural context Although research on COVID 19 has been conducted in various fields particularly in the medical field the analytical perspective of this book is unique COVID 19 prevention policies are considered to have seriously increased other risks such as hunger other infectious diseases interruption of education and various types of human rights violations including increased conflict violence against civilians

and political abuse Therefore this book argues that COVID 19 prevention policies as well as the pandemic itself should be regarded as the downside risk that triggers the deterioration of the other potential risks to vulnerable people Depicted here is the account of how trust in government community and family within the existing political social and cultural environment created pandemic politics as elections during the pandemic instrumentalized and politicized government prevention measures Economic distress threatened people s lives more than COVID 19 during lockdowns and severe behavioral restrictions and the spread of misinformation discouraged people from being vaccinated This book will be useful to policy makers and practitioners in international society who are preparing for the next pandemic based on the lessons learned from the COVID 19 pandemic The Youth Dividend Jan H. Hofmeyr,2012 **International Handbook on the Economics of Education** Geraint Johnes,Jill Johnes,2007-01-01 is a voluminous and timely collection of 18 essays that addresses a number of core issues on the economics of education An exhaustive survey of the literature on the role of universities as multi product firms at various levels and disciplines identifies the nature of the economies of scope and scale This enriches the volume further Economic Analysis Policy the endeavour of bringing together very knowledgeable contributors including some of the leading contributors to the literature in the UK and beyond to write a handbook on the economics of education is highly appreciated The Handbook contains 18 substantive chapters encapsulated by a brief introduction and an extensive and a very useful index the Handbook should be praised as a useful overview of the field of economics of education as it stands today Ludger W mann Economic Issues This major Handbook comprehensively surveys the rapidly growing field of the economics of education It is unique in that it comprises original contributions on an exceptional range of topics from a review of human capital signalling and screening models to consideration of issues such as educational externalities and economic growth funding models determinants of educational success the educational production function educational standards and efficiency measurement Labour market issues such as the market for teachers and the transition of students from school to work are also explored The International Handbook on the Economics of Education will be warmly welcomed by academic economists educational researchers and practitioners in educational management as well as policymakers Comprising specially commissioned articles the Handbook will become indispensable reference for this ever topical field of study

Transforming Universities in South Africa ,2020-08-31 The idea of transformation in higher education underpins all policy documents academic literature and on going debates in South Africa Transforming Universities in South Africa Pathways to Higher Education Reform responds to the pressing need to comprehensively review the post apartheid experience and assess where South Africa s higher education stands across the continent and globally particularly within the country s efforts to overcome decades of socio economic imbalances It addresses the question of whether South Africa s transformation strategy from apartheid to democracy was simply a symbolic new flag raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something

more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally This volume s ultimate purpose is to provide a basis for imagining new futures in which South Africa higher education in the context of Africa and the global world takes centre stage

Social Justice and Education in the 21st Century Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country s developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy

Open Learning as a Means of Advancing Social Justice Tabisa Mayisela, Shanali Govender, 2024-01-23 This volume investigates the uptake of open learning in South African Technical Vocational Education and Training TVET colleges and higher education institutions Comprised of 16 studies focused on activities at a range of colleges and universities across the country these chapters aim to promote a better understanding of open learning practices across the Post School Education and Training PSET sector including issues such as recognition of prior learning access for students with disabilities work integrated learning professional development novel student funding mechanisms leadership for open educational practices institutional culture student support blended and online learning flexible learning online assessment open educational resource development models and funding and micro credentials This collection of peer reviewed chapters contributes to understanding the ways in which South African PSET institutions and educators are interpreting open learning as a means of advancing social justice It includes a historical and contemporary understanding of the economic cultural and political obstacles facing PSET drawing on Nancy Fraser s theory of social justice as participatory parity to better understand the ways in which open learning may address systemic social injustices in order to allow South African students and educators to thrive This volume emerges from research conducted by the Cases on Open Learning COOL project an initiative by the Department of Higher Education and Training in partnership with the Centre for Innovation in Learning and Teaching CILT at the University of Cape Town UCT in South Africa

Youth and Higher Education in Africa. The Cases of Cameroon, South Africa, Eritrea and Zimbabwe Donald P. Chimanikire, 2009 Student activism in Africa at least since the early 1990s has been preoccupied with popular struggles for democracy in both their respective countries and institutions of higher learning The changing socio economic and political conditions in many African countries characterized by the decline in economic growth and the introduction of multi party politics among several other factors have had different impact on students and student political organizations in African universities This book recounts the responses of students to these changes in their attempt to negotiate better living

and studying conditions The four case studies contained in the book Cameroon South Africa Zimbabwe and Eritrea clearly reveal the very important aspects of the situation in which African students find themselves in many countries and underscores the need to understand the character and development of higher education on the continent Ministries of Higher Education Vice Chancellors Deans of Students Student Unions and parents will find this book very useful in terms of understanding the tensions that often arise at institutions of higher learning and why solutions seem to be elusive

Perspectives on Student Affairs in South Africa McGlory Speckman, Martin Mandew, 2014-07-17 The goal of Perspectives on Student Affairs in South Africa is to generate interest in student affairs in South Africa The papers contained herein are based on best practice local experience and well researched international and local theories The papers in this book deal with matters pertaining to international and national trends in student affairs academic development access and retention counselling and material support for students coming from disadvantaged backgrounds They are linked to national and international developments as described in the first two papers This publication will assist both young and experienced practitioners as they grow into their task of developing the students entrusted to them All contributors are South Africans with a great deal of experience in student affairs and all are committed to the advancement of student affairs in South Africa The editors are former heads of student affairs portfolios at two leading South African universities

Universities, Employability and Human Development Melanie Walker, Samuel Fongwa, 2017-01-20 The book makes a significant contribution to critical higher education studies specifically to graduate employability research and to capabilities and education research The book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi dimensional and intersectional human capabilities conceptualisation of graduate employability The book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality Qualitative and quantitative data from multiple case study universities in South Africa are used to explore the perceptions and experiences of diverse students lecturers support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development The book will be highly relevant to students scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability

what are isotopes iaea international atomic energy agency - Nov 12 2022

web aug 19 2022 atoms with the same number of protons but different numbers of neutrons are called isotopes they share almost the same chemical properties but differ in mass and therefore in physical properties there are stable isotopes which do not emit radiation and there are unstable isotopes which do emit radiation

what way do isotopes of an element differ answers - Dec 01 2021

web aug 9 2023 how do different isotopes of an element differ two isotopes differ in the number of neutrons in the nucleus for example carbon 14 has 8 neutrons differing from carbon 12 which has 6

2 3 isotopes when the number of neutrons varies - Feb 15 2023

web atoms of the same element that differ in their numbers of neutrons are called isotopes many isotopes occur naturally usually one or two isotopes of an element are the most stable and common different isotopes of an element generally have the same physical and chemical properties because they have the same numbers of protons and electrons

how do isotopes of a given element differ how am they similar - Dec 13 2022

web jan 5 2016 explanation isotopes are atoms of the same element same atomic number i e same number of protons in the nucleus but different atomic masses different mass numbers due to different numbers of neutrons in the nucleus for example we may get an isotope of chlorine with 17 protons and 18 neutrons hence atomic mass 35

how do isotopes of an element differ socratic - Jun 07 2022

web may 16 2018 explanation an atom is characterized as a particular element by the number of positively charged massive nuclear particles i e z 1 we got hydrogen z 2 we got helium z 3 lithium z 47 we got silver the nucleus can also contain neutrons massive nuclear particles of zero charge

isotopes atomic structure aqa gcse combined science - Jan 14 2023

web atoms of the same element with different numbers of neutrons are called isotopes close isotope atoms of an element with the same number of protons and electrons but different numbers of neutrons

isotope examples definition britannica - Aug 21 2023

web oct 31 2023 an isotope is one of two or more species of atoms of a chemical element with the same atomic number and position in the periodic table and nearly identical chemical behavior but with different atomic masses and physical properties every chemical element has one or more isotopes

isotopes differ due to the number of what socratic - Apr 05 2022

web jul 18 2018 answer link due to the number of neutrons isotopes differ with respect to the number of neutrons their nuclei contain where neutrons are massive particles of zero charge a nucleus may contain variable numbers of neutrons and this gives rise to the phenomenon of isotopes

isotope wikipedia - Oct 11 2022

web isotopes are distinct nuclear species or nuclides as technical term of the same chemical element they have the same atomic number number of protons in their nuclei and position in the periodic table and hence belong to the same chemical element but differ in nucleon numbers mass numbers due to different numbers of neutrons in

isotopes differ in chemistry questions - Jun 19 2023

web verified by toppr correct option is d atoms having same atomic number but different atomic mass are known as isotopes the difference in the mass is due to the difference in their number of neutrons with the same number of electrons and protons

isotopes worksheet answer key part i answer the questions - Feb 03 2022

web part i answer the questions based on the above reading what is an isotope isotopes are versions of the same element they have the same number of protons and electrons as the element but different mass numbers and number of neutrons what does the number next to isotopes signify the number indicates the isotope s mass number

how do isotopes differ in atomic structure example socratic - Sep 10 2022

web nov 27 2016 explanation basically isotopes are nuclei that have the same number of protons and are thus the same element but have unequal numbers of neutrons answer link the nucleus differs as a result of the number of neutrons in the atom the actual structure doesn t differ all that much but its mass does differ thus its density is a little

solved isotopes differ from each other in what ways a they - Mar 04 2022

web chemistry questions and answers isotopes differ from each other in what ways a they have different numbers of electrons outside the nucleus b they have different atomic number o c they have different numbers of neutrons in the nucleus d more than one response is correct e they have different numbers of protons in the nucleus
