Fierce, tender, and smart, *I Am an Emotional Creature* is a celebration of the authentic voice inside every girl and an inspiring call to action for girls everywhere to speak up, follow their dreams, and become the women they were always meant to be. This edition features new material about starting a discussion group based on the book. **Mr. Beautiful** Gail Vic, 2015-11-26 Gracen Hartly is a small town girl from North Carolina who has just moved to Miami. Invitation to Lead Paul Tokunaga, 2003-02-10 Writing from his own rich experiences, both successes and failures, Paul Tokunaga addresses the needs, difficulties, gifts, and abilities that Asian Americans struggle with in leadership. **Notes of a Tour Through Various Parts of New Zealand, Including a Visit to the Hot Springs** German lady, 1877 **Satirist**, 1811 *House Beautiful*, 1901 *The Big Book of Cyberpunk* Jared Shurin, 2023-09-26 A genre-defining and redefining collection of the boldest, most rebellious, and most prescient speculative fiction featuring stories from all over the globe. The sky above the port was the color of television tuned to a dead channel. Almost forty years ago, William Gibson wrote the line that began *Neuromancer* and a movement that would change the face of science fiction. Award-winning anthologist Jared Shurin brings together over a hundred stories from more than twenty-five countries that both establish and subvert the classic cyberpunk tropes and aesthetic, from gritty near-future noir to pulse-pounding action. Urban rebels undermine monolithic corporate overlords. Daring heists are conducted through back alleys and the darkest parts of the online world. There's dangerous new technology, cybernetic enhancements, scheming AI, corporate mercenaries, improbable weapons, and roguish hackers. These tales examine the near-now, extrapolating the most provocative trends into fascinating and plausible futures. We live in an increasingly cyberpunk world packed with complex technologies and globalized social trends. A world so bizarre that even futurists couldn't explain it, though many authors in this book have come closer than most. As both an introduction to the genre and the perfect compendium for the lifelong fan, *The Big Book of Cyberpunk* offers a hundred ways to understand where we are and where we're going. **A World Turned Upside Down** Louis Palmer Towles, 1996 Through letters and journal entries rich in detail, this text follows the trials of the 19th-century Palmer family, who dominated the southern banks of South Carolina's Santee River. The volume offers insights into plantation life, education, religion, and slave-master relations. Founders at Work Jessica Livingston, 2008-11-01 Now available in paperback with a new preface and interview with Jessica Livingston about Y Combinator. *Founders at Work: Stories of Startups Early Days* is a collection of

interviews with founders of famous technology companies about what happened in the very earliest days These people are celebrities now What was it like when they were just a couple friends with an idea Founders like Steve Wozniak Apple Caterina Fake Flickr Mitch Kapor Lotus Max Levchin PayPal and Sabeer Bhatia Hotmail tell you in their own words about their surprising and often very funny discoveries as they learned how to build a company Where did they get the ideas that made them rich How did they convince investors to back them What went wrong and how did they recover Nearly all technical people have thought of one day starting or working for a startup For them this book is the closest you can come to being a fly on the wall at a successful startup to learn how it s done But ultimately these interviews are required reading for anyone who wants to understand business because startups are business reduced to its essence The reason their founders become rich is that startups do what businesses do create value more intensively than almost any other part of the economy How What are the secrets that make successful startups so insanely productive Read this book and let the founders themselves tell you
