Final year student Oxford University: there is no other undergraduate textbook of Paediatrics available that offers such a concise yet complete exposition of the subject.

Final year student Imperial Medical School: the best description and approach I've ever read to the notoriously difficult and problematic topic of paediatric history and examination.

Fourth year student Southampton Medical School: the content is pared down to cover what students need to know and no more.

PhD student Barts and QM medical school London: Almost the perfect paediatrics textbook, this should be a really useful book.

Fifth year student Oxford University: Reviews of Previous Edition beautifully presented book. The At a Glance summary presentations are a superb aid to student and registrar learning.
