Peacekeeping Despite efforts to relegate it to the past what was once a central pillar in Canada's national identity has been making a comeback in recent years *Creating Canada's Peacekeeping Past* illuminates how participation in the United Nations peacekeeping efforts from 1956 to 1997 became central to national self identification in both English and French Canada Delving into four decades worth of political rhetoric newspaper coverage textbooks and more Colin McCullough outlines continuity and change in the production and reception of messages about peacekeeping He demonstrates that those who produced messages about peacekeeping often overlooked the particularities of individual missions preferring to link their cultural products to political discourses about national identity Engaging in debates about Canada's international standing as well as its broader national character this book is a welcome addition to the history of Canada's changing national identity

focused on Canada Joel Thiessen and Sarah Wilkins Laflamme turn to survey and interview data to explore how a nonreligious identity impacts a variety of aspects of daily life in the US and Canada in sometimes similar and sometimes different ways offering insights to illuminate societal and political trends With numbers of nonreligious people even higher in Canada than in the US some believe that secular currents to the north foreshadow what will happen in the US None of the Above asserts that a growing divide between religious and nonreligious populations could engender a greater distance in moral and political values and behaviors At once provocative and insightful this book tackles questions of coexistence religious tolerance and spirituality as American and Canadian society accelerate toward a more secular future
