Interdisciplinary Research in Technology and Management Satyajit Chakrabarti, Rintu Nath, Pradipta Kumar Banerji, Sujit Datta, Sanghamitra Poddar, Malay Gangopadhyaya, 2021-09-14 The conference on Interdisciplinary Research in Technology and Management was a bold experiment in deviating from the traditional approach of conferences which focus on a specific topic or theme By attempting to bring diverse inter related topics on a common platform the conference has sought to answer a long felt need and give a

fillip to interdisciplinary research not only within the technology domain but across domains in the management field as well. The spectrum of topics covered in the research papers is too wide to be singled out for specific mention but it is noteworthy that these papers addressed many important and relevant concerns of the day. Cases on Social Media and Entrepreneurship Hossain, Syed Far Abid, 2024-03-11. In the 21st century social media has emerged as a pivotal force shaping business strategies and entrepreneurship. The rapid evolution of social media platforms poses a pressing question: how can one effectively address this fast-paced transformation? Cases on Social Media and Entrepreneurship explores this and delves into media entrepreneurship, giving special attention to its role in developing women entrepreneurs. It skillfully tackles the challenge of gender disparities within the entrepreneurial landscape. Simultaneously, it also explores how to harness the power of artificial intelligence amid the integration challenges it presents, offering instrumental insights for entrepreneurs and investors, stakeholders, government officials, and policymakers. The book does not stop at identifying challenges; it propels the discourse forward by exploring the future of social media entrepreneurship in business. Addressing AI-related concerns, the book investigates whether it threatens social media entrepreneurs or opens up new avenues for growth. Themes like poverty alleviation, the impact on advertising costs, and the intersection of social media entrepreneurship with AI-driven advancements are thoroughly examined.

Research Methodology : Concepts And Cases Dr. Shusneha Sarkar, Dr. Kalpana Chandrakar, Dr. Vinay Pratap Singh, Dr. Anil Kumar Yadav, 2023-07-19. Research methodology is the process by which a research topic is solved by the collection and analysis of data following a predetermined set of procedures and principles. Methodology in research refers to the general plan or approach used by the researcher. It includes the rationale for the study, the research design, the procedures used to gather data, the methodologies used to analyze that data, and the context in which the study is done. 1. Research methodology serves as a guide for scientists as they decide which methodologies are most suited for their study and how they should go about carrying them out. Data collection, analysis, and interpretation are all aspects of research, yet researchers have their own unique methodologies. Quantitative research techniques rely on numerical data, whereas qualitative approaches focus on other types of information. The primary goal of the research is not data collection. Instead, it extends more than that. Discovering new information and adding to the existing body of knowledge is what research is all about. The reliability and verifiability of study results depend on the research technique used. It lays out a methodical approach that researchers may follow to keep the project on track and under control.

Proceedings of the 3rd International Conference on Reinventing Business Practices, Start-ups and Sustainability (ICRBSS 2023) Meena Rani Nimmagadda, Catherine S., Praseeda Challapalli, V.
