Christian Worldview and the Academic Disciplines Deane E. D. Downey, Stanley E. Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the differences that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful Downey and Porter present a unique contribution to the perennial question of how faith interacts with the academic disciplines Numerous factors contribute to this book's significance the common conviction that one's Christian beliefs ought to shape the contents of one's teaching the variety of perspectives and opinions and the wide range of academic disciplines under discussion The essays originating among the excellent faculty of Trinity Western University will deservedly be much used in undergraduate colleges and universities Hans Borsma J I Packer Professor of Theology Regent College Few faculty

Christian or otherwise understand what their colleagues in other departments are doing or why This collection of essays is not only an excellent introduction to the whole scope of academic enterprises but to the unique and important relationship between each discipline and the Christian faith An important book not only for the entire range of faculty but for students yearning to understand both their Christian faith and what is being taught in the classroom James W Sirf author of the *Universe Next Door* and with co author Carl Peraino *Deepest Differences A Christian Atheist Dialogue* *Christian Worldview and the Academic Disciplines* is a book long overdue It will serve as an outstanding textbook for interdisciplinary courses But this book is more than that *Christian Worldview and the Academic Disciplines* is a book that everyone concerned with Christian thought especially in the context of the Academy will want to read I highly recommend it Craig A Evans Payment Distinguished Professor of New Testament Acadia Divinity College Nova Scotia

Opposing Hate Speech Anthony Cortese, 2005-11-30 What happens when two deeply held American values freedom of expression and freedom from discrimination clash In any well established democratic society people have the right to free speech as well as the right to equal treatment and protection under the law But when one person's speech harms another person on the basis of race ethnicity religion gender or sexual orientation it may qualify as hate speech and be subject to restriction Cortese argues that restricting hate speech does not violate the guiding principle behind the First Amendment but he is not eager to see more lawsuits Effective restriction he asserts should not focus on litigation but on speech codes and moral education Is there a limit to freedom of expression in a democracy and if so where should the line be drawn In attempting to answer that question Cortese makes a solid case for paying attention to context and common sense Some hate speech is more reprehensible than others not all discriminatory statements are equally serious There is a discernible difference between an offensive remark and an incitement to commit murder There is also a fundamental distinction between intentional and

unintentional discrimination In this book Cortese rethinks some of the issues that have been silenced in ways harmful to many especially those that have been brutalized oppressed manipulated dominated segregated and disadvantaged We should recognize the grave injuries inflicted by hate speech and the potential tensions between legal solutions to those injuries and the First Amendment We must push for moral education educational speech codes and when necessary a formal legal structural response to hate speech in order to reinforce our commitment to tolerance as a value Social Problems Robert Dean Peterson, Delores F. Wunder, Harlan L. Mueller, 1999 For courses in Social Problems or Global Issues This volume integrates traditional sociological concepts and insights with an ecological awareness and applies it to the globalization process It takes a dynamic view of globalization as an evolutionary process with a potential for unprecedented transformation of social structure and consciousness **The Social Misconstruction of Reality** Richard F. Hamilton, 1996-01-01 Hamilton finds that despite critiques by historians some scholars continue to believe Max Weber's claim that a strong linkage between Protestantism and worldly success led to the rise of the capitalist West Similarly many academics still argue the discredited view that the German lower middle class voted overwhelmingly for the Nazis *Buddhist Approach to Harmonious Families, Healthcare and Sustainable Societies* Thich Duc Thien, Thich Nhat Tu, 2019-04-16 EDITORS INTRODUCTION BACKGROUND There have been major changes in world today and that the term Global Leadership and Sustainable Development is no longer taken for granted as a point of reference for understanding the contemporary chaotic situation These disruptive changes mean that it is now arguable as to whether we still live in a world of justice equality peace and prosperity The nature of these changes and the concepts of the Buddhist approach are central to the whole project of this book In this light we place great emphasis on understanding Buddhist teaching in dealing with this matter We argue that any investigation of the changing character and context of the present time needs to take account of the Buddhist philosophy We focus on providing a thorough and critical understanding of change taking place as a starting point of discussion In doing so we attempt to clarify the nature of the Buddhist approach It may be more productively understood as the result of a complex contested and fragile set of arrangements which in this book we term as approach We do not imply that the frameworks based on the Buddhist teachings are fully fixed and agreed by everybody Rather it would refer to a set of arrangements that need to be further discussed Given the above this volume collects together papers presented at the international workshop on Buddhist Approach to Harmonious Families Healthcare and Sustainable Societies which took place on 13 May 2019 at International Conference Center Tam Chuc Ha Nam Vietnam on the occasion of THE 16TH UNITED NATIONS DAY OF VESAK CELEBRATIONS 2019 The participants in this workshop were not representative of the mainstream thinking or conventional wisdom of this field although this volume reflects this richness and diversity Treating the Buddha teachings as a basic theoretical reconstruction we examine the relationships between the societies and Buddhist responsibilities We combine analyses of the conflicts trends and dynamics affecting future development with more focused studies on a range of policy

areas migration education leadership climate change etc Two of our most crucial presumptions are that making Buddhism great again at the time of disruption is our first and foremost duty and the Buddhist responsibility can contribute to creating a new foundation for Global Leadership and Sustainable Development *Book Review Index* ,2003 Every 3rd issue is a quarterly cumulation Social Engineering - CTEVT Edition: Nepal C N Shankar Rao, This book has been specifically developed according to the syllabus prescribed by Council for Technical Education and Vocational Nepal for all Engineering students The book has been developed in view of the recent development of the subject This book gives a simple but systematic introduction and explanation to all the 6 chapters Topics like introduction to sociology social study and social science economy condition of Nepal social and cultural change introduction of social development and services concept of social survey and Ethics and Moral are covered as per the requirements of the syllabus I have taken sufficient care to be simple lucid and precise in my explanation of the topics so that it becomes student friendly Silent Racism Barbara Trepagnier,2017-07-05 Vivid and engaging Silent Racism persuasively demonstrates that silent racism racism by people who classify themselves as not racist is instrumental in the production of institutional racism Trepagnier argues that heightened race awareness is more important in changing racial inequality than judging whether individuals are racist The collective voices and confessions of nonracist white women heard in this book help reveal that all individuals harbor some racist thoughts and feelings Trepagnier uses vivid focus group interviews to argue that the oppositional categories of racist not racist are outdated The oppositional categories should be replaced in contemporary thought with a continuum model that more accurately portrays today s racial reality in the United States A shift to a continuum model can raise the race awareness of well meaning white people and improve race relations Offering a fresh approach Silent Racism is an essential resource for teaching and thinking about racism in the twenty first century *Dictionary of Military Sociology* Dr. George Kaffes,2024-05-28 Although Moskos showed the way to this particular field of Military Sociology Dr George Kaffes sociologist and teacher for over thirty years in the Hellenic Army Academy felt the necessity of a first introductive but academic work in order to offer the Dictionary of Military Sociology terms From the small Greek island of Kastellorizo where he finished this work Dr Kaffes goal is to give the opportunity by gathering all these terms including military sociologists and researchers some significative military leaders a small but significative slang vocabulary and some operational terms to every sociologist whose interest is about military and society to have this very special tool in hands Another goal of Dictionary of Military Sociology is to show some terms of military slang which is a colloquial language used by and associated with members of various military forces About the Author Dr George Kaffes is a Military Sociologist and has taught Military Sociology as a fulltime professor at the Hellenic Army Academy for more than thirty years He focuses his research more on sociology of violence and war sociology of terrorism gender in the militaries and army sociology He is married with one daughter and he speaks more than his mother language which includes Greek French Portuguese English and German His book is destined

analysis of modern genocide It is perhaps the most important interdisciplinary account to appear since Zygmunt Bauman's classic work *Modernity and the Holocaust* Stephen Feinstein Director Center for Holocaust and Genocide Studies Alex Alvarez has written a first rate propaedeutic on the running sore of genocide The singular merit of the work is its capacity to integrate a diverse literature in a fair minded way and to take account of genocides in the post Holocaust environment ranging from Cambodia to Serbia The work reveals patterns of authoritarian continuities of repression and rule across cultures that merit serious and widespread public concern Irving Louis Horowitz Rutgers University More people have been killed in 20th century genocides than in all wars and revolutions in the same period Recent events in countries such as Rwanda and the former Yugoslavia have drawn attention to the fact that genocide is a pressing contemporary problem one that has involved the United States in varying negotiating and peace keeping roles Genocide is increasingly recognized as a threat to national and international security as well as a source of tremendous human suffering and social devastation Governments Citizens and Genocide views the crime of genocide through the lens of social science It discusses the problem of defining genocide and then examines it from the levels of the state the organization and the individual Alex Alvarez offers both a skillful synthesis of the existing literature on genocide and important new insights developed from the study of criminal behavior He shows that governmental policies and institutions in genocidal states are designed to suppress the moral inhibitions of ordinary individuals By linking different levels of analysis and comparing a variety of cases the study provides a much more complex understanding of genocide than have prior studies Based on lessons drawn from his analysis Alvarez offers an important discussion of the ways in which genocide might be anticipated and prevented Alex Alvarez is Associate Professor in the Department of Criminal Justice at Northern Arizona University His primary research interests are minorities crime and criminal justice as well as collective and interpersonal violence He is author of articles in *Journal of Criminal Justice* *Social Science History* and *Sociological Imagination* and is currently writing a book on patterns of American murder April 2001 240 pages 6 1 8 x 9 1 4 bibl index cloth 0 253 33849 2 29 95 s 22 95 Contents *The Age of Genocide A Crime By Any Other Name Deadly Regimes Lethal Cogs Accommodating Genocide Confronting Genocide* Provocateur Anthony Joseph Paul Cortese, 2004 This updated second edition offers a refined theoretical framework new pedagogical features and expansion of advertising images and their analysis Controversially the second edition highlights preliminary evidence contrary to popular opinion that media sex and violence do not always sell The new edition reviews these and other recent research findings Other updates for this edition include an evaluation of advertisements following the 9 11 terrorist attacks more on media violence and its nexus to youth violence new discussion of the use of advertising in law enforcement introduces the concept hybridizing combinations of two types of advertising many new ads representing cultural changes since the first edition

The Myth of Affirmative Action Rudolph Alexander, 2023-11-25 Many White people and some conservative Black people believe that affirmative action programs are unfairly depriving more deserving Whites of jobs and

education opportunities The author argues that is a myth For example University admissions data demonstrates that despite affirmative action rhetoric there remains systemic bias against Black students Sociological data on criminal record race and employment found that White people with a criminal record had a better chance of getting a call back than Black people without one Renowned Professor of Social Work Dr Rudolph Alexander Jr analyses many examples which demonstrate that the claim that affirmative action programs have led to unfair discrimination against White people of equal ability is a myth Though not always comfortable reading the book is an important addition to the literature on equality diversity and critical race theory Forthcoming Books Rose Arny,2003 Recording for the Blind & Dyslexic, ...
