Transnational Social Work and Social Welfare

Beatrix Schwarzer, Ursula Kämmerer-Rütten, Alexandra Schleyer-Lindenmann, Yafang Wang, 2016-08-05 The underlying frame of social work is the nation state and it is from within the state that welfare strategies and social policies are devised and implemented However post colonialism globalisation migration and the associated implications for human rights social justice and social welfare policies contest the idea of a clearly defined space for social work and present new challenges for researchers and practitioners Transnational Social Work and Social Welfare argues for the increased importance of the transnational perspective in social work theory and practice The book challenges the idea of the nation state as a given entity

and argues that globalization and an increasing number of people crossing borders must have an impact on the theories and strategies of social work. The international contributors are critical of a restricted focus on a geographically defined space and the impact on work with clients. With cases covering China, France, India, UK, Germany, Malaysia, Israel, Turkey, the book highlights the challenges as well as the opportunities this new perspective can open up for theories and strategies in social work. It will be of interest to students, researchers, and social workers interested in migration, social care, poverty, and cultural competency in health and social care.

Gender Justice and Development: Local and Global Christine Koggel, Cynthia Bisman, 2017-10-02. It is now generally accepted by development theorists and policy makers that the popular policies of reducing or eliminating social welfare programs over the past several decades have increased inequalities and injustices throughout the world. The authors in this collection focus on the gendered aspects of these inequalities and injustices. They do so by exploring the ethics, values, and principles central to understanding and alleviating real-world problems resulting from a lack of gender justice locally and globally. Some of the authors offer new theoretical and conceptual frameworks in order to analyze connections between gender norms and inequalities, to devise strategies to empower women and strengthen communities to challenge mainstream understandings of justice and responsibility, to promote caring and just relationships among people within and across borders, or to shape more adequate accounts of development and global ethics. Other authors apply new theories and concepts in order to explore gender justice in the context of issues such as climate change, land ownership rights in Cameroon, or empowerment strategies in places such as Afghanistan, Bangladesh, Ghana, Columbia, and Indonesia. This book was originally published as a special issue of *Ethics and Social Welfare*.

Diğer yandan etik eğitiminde bir araç olması motivasyonu ile tartışılacak konular na yer verilerek okuyucuya farklı sorunsallar ve bakış açıları yansıtmaya çalışılır. Son olarak araştırma ve raporlama süreçlerinde nem verilmesi gereken belli noktalar vurgulanmıştır.
