Measuring History S. G. Grant,2009-03-01 *Measuring History* complements the cases presented in *Wise Social Studies Practices* Yeager Davis 2005 Yeager and Davis highlight the rich and ambitious teaching that can occur in the broad context of state level testing In this book the chapter authors and I bring the particular state history tests more to the fore and examine how teachers are responding to them At the heart of *Measuring History* are cases of classroom teachers in seven states Florida Kentucky Michigan New York Texas Mississippi and Virginia where new social studies standards and new and generally high stakes state level history tests are prominent In these chapters the authors describe and analyze the state's testing efforts and how those efforts are being interpreted in the context of classroom practice The results both support and challenge prevailing views on the efficacy of testing as a vehicle for educational reform Catherine Horn University of Houston and I lay the groundwork for the case studies through a set of introductory chapters that examine the current environment the research literature and the technical qualities of history tests

school settings despite pressures of standards and testing We chose the word wise for the title of this book and we use it frequently to describe the pedagogical practices we have identified The words powerful and ambitious are used as well The larger point as Keith C Barton makes in his chapter is that there is no necessary connection between content standards and high stakes tests on the one hand and lowlevel rote instruction on the other He reminds us as Thornton 1991 and Wiggins 1987 previously have argued that teachers play a crucial role in mediating educational policy and their intentions and interpretations have at least as much influence on classroom practice as does the content of standards and highstakes tests Barton also asserts that this makes it all the more crucial to identify the wisdom of practice that enables teachers to engage students in powerful educational experiences **Handbook of Research in Social Studies Education** Linda S.
