Sociology The Sociological Imagination

-Can you distinguish between "making the strange familiar" and "making the familiar strange"?

-How might your first blog have accomplished one or both of these?

-Why is connecting personal problems to the social world such an important part of cultivating the sociological imagination?

- **Making the strange familiar:** There are groups that are strange, different, reviled and sociologists study these groups and make them less strange
 - Ex: cockfighting
- **Making the familiar strange:** "Thinking like a sociologist" means applying analytical tools to something you have always done without much conscious thought
 - It requires you to reconsider your assumptions about society and question what you have taken for granted in order to better understand the world around you
 - Ex: the blog observational activity
- **Sociological imagination** - the ability to connect the most basic, intimate aspects of an individual's life to seemingly interpersonal and remote historical forces
 - Heart of sociology
 - Questioning everyday
- Mills' lesson: the first lesson of the social science is the idea that the individual can understand his own experience and gauge his own fate by locating himself within his period, that he can know his own chance in life only by becoming aware of those of all individuals in his circumstances
 - Terrible lesson: makes our own lives ordinary
 - Good lesson: serves as a source of comfort
- The sociological imagination allows us to see the veneer of social life for what it is, and to step outside the "trap" of rapid historical change in order to comprehend what is
- The sociological imagination allows us to grasp history and biography and the relations between the two within society

Social Institutions

Conflict vs. Cooperation

Why is Functionalism a basis for understanding society as rooted in cooperation?

- Societies evolve from one form to another, like organisms
 - Move from less to more complex differentiation
- **Functionalism** - is a theory that says society is a system of interconnected parts that work together in harmony to maintain a state of balance and social equilibrium for the whole
 - Functionalism reinforces the status quo and dominant economic system with its class structures and inequalities rather than challenging how such systems and offering alternatives (aka need to have conflict in order to have a functionalistic society in the long run)

g fact checking naming sources should apply to qualitative research Some ethnographers are calling for more open critical discussions about the embodied dimensions of fieldwork including not only emotions but also issues like sexual intimacy and harassment There s also a growing expectation that ethnographers empower our subjects to represent and analyze themselves What s more as more of social life is lived online it becomes increasingly unclear where the boundaries of the field site should be drawn and whether ethnographic conventions can be applied wholesale to the study of digital spaces
