

CHAPTER 6

CHALLENGES TO CULTURAL DIVERSITY

The term 'diversity' emphasises differences rather than inequalities.

1. India is a culturally diverse country having communities of different religions, languages, sects, races and castes.

- Cultural identities are very powerful-can arouse intense passions.
- Able to mobilise large numbers of people.
- Sometimes cultural differences are accompanied by economic and social inequalities can provoke opposition from other communities.
- Situation becomes worse when scarce resources like rivers waters, jobs of govt. funds have to be shared.

2. Cultural identities can be a challenge if competition, conflict or social, economic inequalities exist among them.

The importance of community identity

- Our community provides us with languages (our mother tongue) and cultural values. It also anchors our self identity.
- Expanding and overlapping circles of communities (family, kinship, caste, region or religion). They give us a sense of identity of who we are.
- People react emotionally or even violently whenever there is a perceived threat to their community identity.

3. **Community identities are universal**

- ascriptive, based on birth rather than choice.
- give a sense of security and identity.

4. **Nation** is a large scale community consisting of different communities. A state refers to an abstract entity consisting of a set of political legal institutions claiming control over a particular geographical territory & people living in it.

- **Nation States** are communities that have a state of their own in the modern world.
