Retrofitting Cities for Tomorrow's World Malcolm Eames,Tim Dixon,Miriam Hunt,Simon Lannon,2017-09-06 A groundbreaking exploration of the most promising new ideas for creating the sustainable cities of tomorrow The culmination of a four year collaborative research project undertaken by leading UK universities in partnership with city authorities prominent architecture firms and major international consultants Retrofitting Cities for

Tomorrow's World explores the theoretical and practical aspects of the transition towards sustainability in the built environment that will occur in the years ahead. The emphasis throughout is on emerging systems innovations and bold new ways of imagining and re-imagining urban retrofitting set within the context of futures based thinking. The concept of urban retrofitting has gained prominence within both the research and policy arenas in recent years. While cities are often viewed as a source of environmental stress and resource depletion, they are also hubs of learning and innovation offering enormous potential for scaling up technological responses. But city level action will require a major shift in thinking and a scaling up of positive responses to climate change and the associated threats of environmental and social degradation. Clearly the time has come for a more coordinated planned and strategic approach that will allow cities to transition to a sustainable future. This book summarizes many of the best new ideas currently in play on how to achieve those goals. Reviews the most promising ideas for how to approach planning and coordinating a more sustainable urban future by 2050 through retrofitting existing structures. Explores how cities need to govern for urban retrofit and how future urban transitions and pathways can be managed, modeled and navigated. Offers interdisciplinary insights from international contributors from both the academic and professional spheres. Develops a rigorous conceptual framework for analyzing existing challenges and fostering innovative ways of addressing those challenges. Retrofitting Cities for Tomorrow's World is must reading for academic researchers including postgraduates in sustainability, urban planning, environmental studies, economics among other fields. It is also an important source of fresh ideas and inspiration for town planners, developers, policy advisors and consultants working within the field of sustainability, energy and the urban environment.

[The Global Insurance Market and Change](#)
Anthony A Tarr, Julie-Anne Tarr, Maurice Thompson, Dino Wilkinson, 2023-10-17

This book focuses on the global landscape in which insurance is transacted and where it is evolving, driven from within by transformative technologies and externally by the necessity to address risks like climate change and health crises such as the COVID 19 pandemic. It discusses the dynamic challenges and opportunities that lie ahead for the industry in areas such as on demand insurance, embedded insurance, parametric insurance, autonomous vehicles, the rise of fintech, the cyber risk landscape and through initiatives driven by distributed ledger technology or blockchain solutions. Moreover, it covers the major external challenges confronting the global insurance market such as the growing insurance protection gap in relation to the affordability and insurability of natural catastrophes and climate change and pandemics like COVID 19. This book examines innovations in insurance driven by the industry as well as externally imposed changes and dynamics impacting the industry. It describes these changes, the industry's responses and the legal framework in which they occur. It canvasses additional regulatory and law reform initiatives that may be necessary to achieve an effective balance between the various competing interests. The book is the first to address these matters holistically with a particular focus upon insurance law; it will describe these changes and industry responses and the legal framework in which they occur. The Global Insurance Market will be directly relevant to legal professionals.
