a superb fighter when both its pilots and their commanders worked out how to deploy the gull wing design effectively. Optimum circumstances for effective engagement did not always occur and the Zero remained effective against the Corsair until February 1944 in the South Pacific after which all IJNAF fighter units vacated Rabaul. This book closely examines these two different fighters in the Solomons Rabaul theatre and the unique geographic conditions which shaped their deployment and effectiveness. It contains rare photographs and digital artwork that accurately showcases and aligns combats of both types in theatre with unprecedented accuracy. Both sides vastly over claimed. With full access to IJNAF and US Navy US Marine Corps records these numbers will be presented accurately.
