*Introduction to Senior Transportation* Helen K. Kerschner,Nina M. Silverstein,2018-01-31 Introduction to Senior Transportation focuses on an issue that is a growing concern the community mobility needs of older adults Surpassing the coverage available in existing gerontology textbooks it enables the reader to understand and appreciate the challenges faced by older adults as they make the transition from driving to using transportation options many of which were not designed to meet their particular needs It considers the physical and

cognitive limitations of older adult passengers the family of transportation services the challenges providers face in meeting the assistance and support needs of senior passengers and the transportation methods that do and do not currently meet the needs and wants of senior passengers This textbook addresses the educational and professional development needs of faculty students and practitioners working in the fields of aging aging services and transportation The book has been class tested and features innovative practical learning tools that appeal to students and practitioners It complements any introductory course in gerontology human development and aging or human factors and will enhance the curriculum of programs in the social behavioral sciences as well as traffic safety transit engineering and community planning
