Kevin Roberts wrote *Lovemarks the future beyond brands*. It was admired by many as a breakthrough in marketing thinking but was also controversial because of its surprisingly obvious thesis that emotional connections are at the heart of sustained relationships between producers, retailers and consumers. While many companies were using the language of war in their marketing, target, penetrate, ambush, Roberts was using the language of love, mystery, sensuality, intimacy. He explained in simple terms what people are often loath to admit: we make decisions with our emotions over our reason. *Lovemarks* described the journey by which brands could move from consumer respect based on intellect to consumer love based on emotion and in return gain loyalty beyond reason. In 2010 *Advertising Age* magazine named *Lovemarks* one of their ideas of the decade while noting that the roadmap for brands to achieve *Lovemark* status was still not entirely clear. *Loveworks* How the world's top marketers make emotional connections to win in the marketplace adds to the original *Lovemarks* by showcasing real world business examples and outlining the roadmaps followed by several world renowned brands to achieve *Lovemark* status. Procter Gamble, Toyota, Visa, General Mills, Miller T Mobile and Lenovo are just a few examples of businesses winning in the marketplace through the application of the *Lovemarks* theory, maintaining laser like focus on making and sustaining emotional connections with consumers. *Loveworks* features 20 case stories from clients and markets worldwide in widely varying categories. My book shows that *Lovemarks* thinking works anywhere, anytime. All it takes is having the brains to implement it, the guts to see it through and an abiding faith in emotion as your compass. Says Brian Sheehan, *In the Company of Cars*, Sarah Redshaw, 2017-09-29. It has long been accepted that the social and cultural meanings of the car far exceed the practical need for mobility. This book marks the first attempt to contribute to road safety considering in depth these meanings and the cultures of driving that are shaped by them. *In the Company of Cars* examines the perspectives that young people have on cars and explores the broader social and cultural meanings of the car, the potential it is supposed to fulfil and the anticipated benefits it offers to young drivers. From focus group research conducted in Australia, the book takes up the views of young people on a range of topics from media to car use to gender performance. The author looks at the ways in which driving has been defined by articulations of the car that emphasize valued features of the car driver such as gender, youthfulness, status, age, power, raciness, sexiness, ruggedness and competitiveness. The book takes a global perspective on mobility, considering the impact of cars and road safety policy on quality of life and the value and significance of other modes of travel in a range of countries.

Junior Graphic Mavis Kitcher (Mrs), 2002-07-24 *Russia Automobile Industry Directory - Strategic Information and Contacts* IBP, Inc., 2009-03-30 *Russia Automobile Industry Directory* *A Matter of Conscience* General Jerry Singirok, 2022-02-24. Twenty years on from the abrupt ending of his military career, Jerry Singirok has had much time to ruminate on the past. Another strength of his manuscript is in my view, the extent to which he does stand back and reflect, often quite critically, about his own decisions as well as more broadly about politics, leadership, corruption, faith, family and many other facets of public and personal life in PNG. While coverage of the Sandline Affair and his

military deployments to Bougainville may be action action packed it is also a thoughtful work While still largely remembered for his act of defiance and rebellion Singirok s actions also heralded the beginning of the Bougainville Peace Process The book will be of considerable interest to many readers and not just for those with a Pacific focus
