Transformation Mohammed Hamed Ahmed Soliman, 2020-11-30 Many businesses say that lean failed to meet their long term objectives and that the improvements it brought about were only temporary When businesses utilize lean as a toolkit copying and pasting the methodologies without trying to adapt the employee culture manage the improvement process maintain the outcomes and grow their leaders 7 out of every 10 lean projects fail The primary objective when the Toyota production method was developed was to eliminate wastes from the shop floor by utilizing some lean techniques and technologies What wasn t made obvious was that Toyota would need to invest heavily in personnel development and training throughout a protracted leadership development process An issue with management and leadership as well as an incorrect understanding of human behavior and the necessary culture for success is the failure to achieve and sustain improvement
